Mécanisme de travail UltraSurf configure le navigateur d'un utilisateur pour garantir que seul le trafic HTTPS soit routé et crypté. Il ignore http qui passe via un fournisseur de services Internet régulier. Une fois installé sur Windows, il configure automatiquement Internet Explorer (Internet Explorer) et efface les détails de l'historique et les cookies lorsque le navigateur est en cours de fermeture. UltraSurf Security, Privacy & Unblock VPN dissimule votre adresse IP, efface les cookies et l'historique de navigation. Il intègre un cryptage de bout en bout pour éviter que vos information ne soient look par des tiers. La navigation anonymity n'a aucune restrictions de bande passante. Sans and seamless Layanan VPN UltraSurf Keamanan, Privasi Membuka blokir generally works well, well, Hassle. Your Internet connection can be easily secured even as you explore Wi-Fi hotspots, suffocating hackers trying to steal data. While it's important to prevent Internet service providers from monitoring and documenting online activity, UltraSurf Security, Privacy - Unblock VPN is an indispensable tool. The extension feature allows you to secure your Internet activity at the push of a button. It works very well in schools, workplaces, public places, etc. without geographical restrictions. Unlike other VPNs, extensions have no fixed fluctuation and fluidity issues even after downloading files online with encryption enabled. More importantly, there is no significant decrease in Internet speed. Works very well No registration or registration required Some browsers like Firefox may require manual configuration Plus #39 proxy #39 vpn access websites blocked by the government. UltraSurf also improves our security on public Wi-Fi networks, hides your IP and encrypts your communications. Users in countries without internet censorship also use it to protect their internet privacy and security. Originally created to help internet users in China discover online security and freedom, Ultrasurf has now become one of the world's most popular, pro-privacy anti-privacy software, with millions of people using it to bypass internet censorship and protect their online privacy. You can also download UltraSurf for Android here. Privacy Protect your privacy online by surfing and browsing anonymously. Ultrasurf hides your IP address, deletes browsing history, cookies, and more. Security Using industry standards, strong end-to-end encryption to protect your data transfer from being seen by third-party Freedom Bypass internet censors to roam the internet freely.
