CCPA About Search Results About Search Results YP - The Real Yellow Pages SM - helps you find the right local business to meet your specific needs. Search results are sorted by a combination of factors to give you a set of choices in response to your search criteria. These factors are similar to those you can use to determine which business to choose from a local Yellow Pages catalog, including proximity to where you are searching, expertise in the specific services or products you need, and comprehensive business information to help evaluate a company's suitability for you. Preferred listings, or those with featured website buttons, show YP advertisers who directly provide information about their businesses to help consumers make more informed purchasing decisions. YP advertisers get a higher ranking in the standard order of search results and can appear in sponsored lists on the top, page, page, or bottom page.
