Map norms 2015

To increase their efforts to increase each student's learning and growth, Northwest Assessment Association™ (NWEA™) researchers have updated information about students' performance measures in academic progress® (MAP®) interim evaluations. Download the 2015 NWEA Academic Development Regulatory Data Measures to find out how our RIT scale standards allow you to compare achievement status and changes in achievement status (growth) between pilot events – students' results at the same level as the school year. You'll see how this contextual student performance: helps teachers when they plan guidance from individual students or counsel parents supported by school or district administrators as they focus on resource allocation, which gives school staff as they work to improve all educational outcomes NOTE: You'll find a full survey in two places: Download 2015 academic development benchmark measures to inform guidance decisions that will help you make more strategic coaching and programmatic decisions. From identifying students for different mentoring strategies to making more informed personnel and resource choices, see how our comparative data helps you support both students and educators. Download benchmarks » Finally download our 2015 MAP College Readiness Criteria Study, which identifies MAP cut scores that meet published ACT® college readiness criteria. You'll find tables to help you and parents assess whether a student's college readiness is on track. Download the college readiness study » To increase your efforts to increase each student's learning and growth, Northwest Evaluation Association™ (NWEA™) researchers have updated information about student performance measures in Academic Progress® (MAP®) interim evaluations.
