By choosing one of our watches you can be sure to get a product of exceptional quality with two years of international warranty and the service you expect. To protect your interests, the Company wishes to prevent you from having unauthorized distributors offering questionable watches, used products, unapproved warranties, and other types of fraud, particularly in connection with forgery. Moisture rinse periodically watch with soap and clean water, especially after use in salt water. For frequent or long periods underwater, we recommend using a silicone, steel or gold belt. Remind you that your watch is so waterproof that your rubber mattresses are in excellent condition and as long as the crown is taut or taut in the case, especially after determining the time or other function. Over time, the mattresses on your watch will deteriorate. It is recommended to check your watch seal annually, to assess whether it is necessary to change the joints and/or crown. Condensation in the event of sudden temperature changes, condensation may appear under your watch glass. This steam will disappear on its own and will not affect the process of your watch. If this condensation occurs it can often be caused by rubber mattresses that have deteriorated. We recommend that you check your watch stamp once a year. Crystal watches some crystals with an external anti-reflective treatment in order to improve vision. These thin membranes can be damaged after a crash, scratches or ill-treatment. CORREAS we advise you to limit your contact with water. For care and cleaning, we recommend cleaning it with a dry cotton cloth and not using abrasive products. It is normal that the skins and crocodile straps darken over time. The exclusive new H-20-S Skeleton Movement is both the pulsating heart and the exposed soul of the JazzmasterViewmatic Hamilton skeleton, gent Lady.In two contrasting designs, the same movement carrying almost everything, constantly reminding wearers to look for beauty inside and out. Play hide horological and search behind skeletonized requests, these watches review the theme of gender equality from opposing angles, and harmoniously agree to differ. Based on the idea that the opposites attract, the traditional watchmaking technique of the skeleton meets its match with high-tech laser engraving contributing to the decoration that will be at home on the coveted works of contemporary art. The H-20-S Hamilton automatic movement reflects the subject matter of the skeleton, uniting the proven craft with uncompromising precision. Contemporary décor, ranging from 50-50, skeletal rotors to complex 'H' style on individual elements, add a sense of theater to traditional precision timekeeping. The wearer's audience participates in this show directly thanks to the generous-dimension openings that display components such as escape, hair and barrel with enthusiasm at work. The revealing female intuition proudly wears his heart on his sleeve, and Hamilton's Jazzmaster Viewmatic Lady Skeleton combines a romantic appeal with fine details. The unmistakably modern filamenteffect creates many windows in a variety of cross-round shapes, a white iridescent tablet. The overall effect has a floral-inspired character, with elegantly elongated indicators appearing as permanent dew shots. The detail design invites the eye to peek through the exclusive slots to see, and the automatic H-20-Smovement is decorated, scattered with details resembling a red sapphire petal, in action behind the scenes. A personal behind-the-scenes tour of the case continues, and is open. Meeting the desires and needs of today's multitasking women is a unique new facility concept consisting of an easy click belt. This can be worn to exchange five rows. Steel bracelet for white leather belt, with edge and specification with sumptuous robert, to accommodate a change in outfit, suitable or look. Playing the role of a strong lead male that contains the same exclusive movement just as watching the feminine soul companion, the Jazzmaastromatic skeleton Gent Hamilton includes a wonderful session of the show and tell. On the show on both sides of the watch are the very modern watchmaking techniques used to create the H-20-S engine of the watch, telling the story of aesthetic mechanics meeting bold masculinity. The angles and curves unite the forces to make an exciting, colorful ananhrac cut-outs occupying the majority of the demand and even offering stolen glimpses of the wrist below. Framing this is cleverly built, and multi-level loops display detailed markers from 0 to 60and brand. In contrast to the technical data of the skeleton super LumiNova is applied® indicators for more technical punctuation. The last word comes from a choice of a five-row stainless steel bracelet or a black leather belt. Suddenly the concept of wearing your heart on your sleeve seems like having a clearly masculine appeal. Hamilton was founded in 1892 in Lancaster, Pennsylvania, USA.
