Sensual moisturizer@Helps sealed in moistureWhich experience absolute moisturizingShow MoreIsopropyl Myristate, sesamum indicum seed oil (sesame), PEG-40 sorbitan peroleate, perfume, propylparaben, BHTWhen using Neutrogena Body Oil or any bath product, be especially careful to avoid slipping. The skin requires regular hydration to maintain the best health. Unfortunately, moisture gradually evaporates throughout the day, leaving you at risk of dry skin. You can solve this problem and promote softer, smoother skin from head to toe with body moisturizers available from Walgreens. We carry a large selection of moisturizers for the hands and body with options for every skin type and concern. Shop for our full range of body moisturizers online or use the menu to narrow down products and find the best one for your needs in no time. A handy store positioning even allows you to find where you can buy moisturizers in your neighborhood Lotions vs. Creams vs Body Moisturizer Gels are available in three main forms: gels, lotions and creams. Gel moisturizers have jelly-like consistency and often feel cool to the skin when applied. In general, the gel is the lightest moisturizer available. Lotions have cream consistency and have a high concentration of water, making them lightweight and easy to apply. use. lotion, cream with a rich texture. With higher oil concentrations and less water, creams provide abundant hydration to the skin. Oil for deep hydration If your skin is severely dry, body oil can be an excellent choice of moisturizer. The oils are made mainly from oil-based ingredients and contain very little water. As a result, they have smooth, thick stability and provide a large dose of moisture to the skin. You can apply body oils all over to tackle dryness or apply them to trouble points such as your elbows, feet and knees. Body oils can also be used to lubricate the skin and enhance the home massage experience. Some people even add a few drops of body oil to the bath water to create a soak. Optional for all Skin Types At Walgreens, you'll find body moisturizers suitable for all skin types. For oily skin, look for oil-free or non-harmful products that provide moisture without causing oily and obstructive skin. Moisturizers designed specifically for dry skin are usually lotions and creams and contain a large amount of moisturizing ingredients to soothe dry skin thirst. If you have sensitive skin, an allergenic body moisturizer is an excellent solution. These moisturizers often do not have ingredients that are known to cause irritation, such as perfumes. Natural and organic moisturizers are available for those who are sensitive to synthetic ingredients and who are striving to use many natural products Sunscreen moisturizers containing sunscreen protect the skin from the harmful effects of ultraviolet rays. These products can be used in place of sunscreen independently or with regular sunscreen as an additional protective layer. Solutions to special concerns If you are struggling with a skin care problem, you may find body moisturizers that can address your concerns while rehydrating your skin. Leading brands offer formulas to soothe eczema, psoriasis, redness, sensitivity and skin itching. A firming moisturizer promotes youthful skin with ingredients that support collagen production. Lightening moisturizers can reduce the highlighting of black spots, stretch marks and other types of color change. change color.
