This amazing game is called Cat Ninja, we offer you an accessible version of the game on our blog that allows you to enjoy this game at school. The main movement of the game is controlled by the following keys: A, S, D and W. You can jump twice if you press the W button twice, make sure you jump over various obstacles, otherwise you may end up in spikes and die. As you know, there are different traps on the map, getting to the finish line is going to be hard work, you have to constantly avoid these traps, jump over obstacles and stuff like that. There are crystals that you can pick in the game, make sure you don't miss anything about the more points you pick out, this is one of the biggest challenges of the game besides achieving the finish line alive.
