## Asu fitness center polytechnic

Homestructionson Devil Fitness Complex - Polytechnic Polytechnic Campus Sun Devil Fitness Complex was constructed in direct response to students' demand and input. The building is a two-story, sustainable structure, certified by the United States Green Building Council for a lead (lead in energy and environmental design) gold designation. Included in the facility are two football fields and a softball field, and 10,000 square feet of cutting-edge weight and fitness fields including cardiovascular equipment, power machine tools, and free weights. The campus also boasts three multipurpose studios for aerobics, boot camps, yoga, dancing, pilates and student club use; a two-court gymnasium for basketball, volleyball, and badminton; a multi-activity gymnasium for campus events, conferences, concerts and indoor football; two racquetball courts; expansion of health services; and an outdoor leisure pool with lap lanes. Programs and services are open during the day, evening and weekend. Read more at ASU News. Campus: Polytechnic Gross Square Footage: 72,181 Total Project Cost: \$25,590,000 Architect: Architecton Construction Team: Gilban Project Start Date: December 2011 Project Last Date: January 2013 Lead Certification: Gold 94.8 82 (kWh) Annual Production FY 2019 260 (kWh) Average Daily Production FY 2019 \$211 (Thousands in Dollars) Total Project Cost Based on Individual Daily Health Check ASU Guidelines: Will I be checked when I come to the facility? Some buildings have screeners at the entrance, but not because of staffing levels every building will have anyone stationed at the door. For those buildings, ASU is asking that visitors ask themselves the following questions, according to the same CDC guidelines used by screeners. Be honest; if you can say yes to any of these, please don't go inside. Go home and contact your health care provider and your supervisor before returning to campus. If we can help you meet your needs without needing to enter the building, we will do so. 1. Are you sick or do you feel sick? 2. Do you have 100.4 or more fever? 3. Have you experienced any new respiratory symptoms like cough or shortness of breath within the last 14 days? 4. Have you had close contact with anyone who has tested positive for COVID-19, or who has been tested and waiting for results while they had symptoms or in two weeks before they began to show symptoms? Note: The CDC defines close contact as: a) as close contact defines A: being within approximately 6 feet (2 meters) for a long period of time of a COVID-19 case; When caring, there may be close contact when living, visiting, or sharing a health care waiting area or room with a COVID-19 case; or b) having direct contact with the infectious secretion of a COVID-19 case (for example, being coughing on). Our Roof Offers 25-yard, heated leisure pool For lap swim, engage in water volleyball or simply unwind while enjoying the scenery of downtown Phoenix.
