Telugu bible reference guide

This free website for Bible study is dedicated to a special spirited Bible. The Bible is the only source of faith (redemption) and practice (Christian life). It is important to find the author's purpose as follows: (1) the selected type of literature, (2) literary context, (3) selected grammar, (4) selected words, (5) historical state of the author and the writing syntax, (6) parallel sentences (a good analyst is written with a good analysis of the book to analyze the book with a thin empathy. The Bible is a library of truth). His author is educated and is prepared in his commentary (Bible Commentary) (see the Book of His Life and the Expressions of Faith in www.freebiblecommentary.org). He tries to promote the following: 1. He encourages you to read the Bible as you are (whose rulers you are, the Bible and the Holy Ghost) 2. It helps you to correct your understanding and offers other comment choices 3. Once the author's author has discovered the purpose (it is the same meaning), then it is your culture and your Apply! There are many possible applications, but all that is the same is the purpose of the author. Bible commentary is a fundamental indicator of a person's observations in the study of Scripture. Every aspect of analysis is important, but modern Bible analysts often say: How does this lesson relate to me? Ask, and a slightly better question is: What did the author (the author's only author) say to him? And: How can I exoticize this truth for my life? I hope that my Biblical commentary seminar will be a blessing for you and that this verse-by-verse analysis will lead you closer to God.
