Coc army calc

0 -- Select Troop -- Archer Baby Dragon Balloon Barbarian Bowler Dragon Electro Dragon Giant Goblin Golem Healer Hog Rider Ice Wizard Lava Hound Miner Minion P.E.K.K.A. Valkyrie Wall Breaker Witch Wizard Of course the ads are annoying, but that's not what I'm here to talk about. This application has not been updated since the release of Lava Hounds. Some troop costs and training times are all wrong or inaccurate. There are no level 5 dragons, no level 7 troops, no dark spells... This app is good if you're just starting clash, but for end-of-game players like me, it becomes less useful. You are better off finding the most efficient use of your barracks by yourself. The evolution of the classic clash of the clan builder system, dedicated to all fans of this war strategy game. Without using hacks or cheats, stop exploring enemy maps incorrectly and find the vulnerable points of each coc base and dominate the game! Calculate the number of troops sent to destroy an enemy defense Try it now! It is free help to plan the composition of your army, optimize the distribution of troops between the barracks for optimal training time and calculate the cost of the attack in order to stay in addition after the battle. Clash Calc is no longer supported. Almost all the features are now available in the game. This means that there will be no more updates. Par Par 2016/06/05 21:48 Worked for what I needed for. And overall it was very simple #39, but there were a lot of additions during the duration of my use in the app. This requires some major updates! This application has a very good potential, but from now on it has not hit. Good luck with the app hopefully it works for you by Vlad Martinez on 2016/05/05 21:43 Paid a dollar for in-app purchase to remove ads, but I'm still damd with ads!!!! by ClassAt12 on 2016/04/16 11:37 Non-stop block of full-screen ads. No need to pay for ... not worth putting up with the ads. Bu-bye by @@@ on 2016/04/02 18:41 Downloaded, before I could finish setting all my troop levels, I had to see 6 ads. Hou. I could do the math faster in my head than this thing of way, useless application try to milk the money way too hard, ignore it. by Tshirley1102 on 2015/08/21 08:07 I've always loved this app, but with new prices on troops and spells, and the new dark spell factory, it really needs to be updated. by Aurigenesis on 2015/08/06 17:34 Used this application for a while and noticed that the calculation is off. The one I noticed was the time of lv 4 assistant is 8 minutes, but in the app it '#39 put to ten. I would give it at least two stars, but I see someone sent a review and it seems that nothing has changed in three months. Also, I see more pop up ads for Game of War that I have a chance to calculate anything. This application turned out to be a more money ploy than a calculator. by Treneskin12 on 2015/06/04 17:30 It needs more than two dark troops, the cost has changed, and lvls are to be added to the troops by Shooter mcgavin 2345 on 2015/05/24 00:08 Just downloaded this today. The spell factory set to level five still has only 4 as the maximum choice on the drop down spell menu. Also the training time for balloons, Wizards, healers, pigs and Valkyries are not correct. Balloons and wizards train in 8 minutes not 10, healers are 14 minutes not 15, pigs train in 2 minutes not 5 and Valkyries train in 8 minutes not 10. I didn't #39 bother checking the spells. Otherwise, it #39 nice to have a standalone calculator for the troops. by Chief Justin on 2015/04/20 01:10 This application is better than some that it will record a mock-up of the army, but it remains. Doesn't #39 have the updated troops where the troop cost him #39's almost a year behind that'#39 s stupid and inaccurate i'#39 amp; m dumping by UT. ShawnRosario on 2015/04/05 04:56 Don't #39 do it. by Pau gyut on 2015/03/10 16:03 I have level 7 giants and this application considers only level 6 giants. by Idleford on 2015/02/12 14:54 Lava Dogs were added to the army months ago and they still haven't #39 amp; not updated the application by KYR SP33DY, deadly army on 2015/01/30 03:50 I think there is no #39; not many ads because they do pop up for me. It is so useful, I put in all my attacks and it tells me the cost, how long to train it, and how many troops to put in each barracks! It is so useful and I love it! Many people say this app, but there is no reason to, it does the job! by N88Fr8 on 2014/12/17 23:15 This is an excellent application for calculating troop costs and testing troop combinations. The ads are #39 not too bad - it #39's just one at the bottom. All in all, an excellent application and very useful! by Valanze on 2014/12/12 18:01 If you go in airplane mode adds don and #39 I show up and be a little slow, but it gets the job done so this app deserves more credit per j3rmz0r on 2014/12/11 15:02 Cool idea, but the ads cover the page every time you do something. Loses game time. In addition, the game works in landscape mode. Please add support for the landscape. It's easier to do a google search to #34 calc clash and add #34 it to your home screen. The app should be better than the website and it just isn't #39 amp; t. by LHMPierre on 2014/10/29 01:50 Constant adds pop up blocking view and shoot focus away from what you're #39 and re trying to do. But with the recent Clash update this also needs an update to keep up with the pace or I can delete it as it would be obsolete. UPDATE IT PLEASE?? by TheHottestPotato on 2014/09/16 23:31 Ads block the save calculation button. :L by Jduhdgbf on 09/04/16 00:34 Very full use for fing costs by Kdub101 on 2014/08/21 16:25 The construction time hog rider is not correct. by Chfjchinbvh on 2014/08/21 01:58 I use this app every time I assemble my clan by SaxMan 83k on 2014/08/19 13:28 Still no fees for witches? Really, how hard is that? That would be a great application, except for that? I thought the update would solve this problem, but unfortunately not. by Coolie #1 on 2014/08/03 11:27 It and #39 its excellent application to prepare raids to be effective and it is better to rehabilitating several other applications out there, but there are some problems. The pig riders are off for the cost of training, you can make a frost spell with any spell facies. And the cost of the spell does not add up with the cost of the troop. The latter is not a glitch, but a problem with an easy solution. by tehJolly on 2014/07/29 12:51 Some numbers need to be updated in this application ... Could make my own soon if it #39 not be fixed. Balloons: Train time 8m, not 10m Wizards: Train time 8m, not 10m Hogriders: Train time 2m, not 5m Not sure of the costs, if anyone wants to provide these updates. by Boss daddy 316 on 2014/07/20 18:56 Great application. Just need updating hogs are 40 dark not 30. And the valkaries are 70 dark, not 100. They also need to add jump spells. Otherwise, he can easily calculate the troops though. Recommended for low-level people who #39 I have dark troops and jump spells by junior0897 on 2014/07/08 19:35 If this application were up to date, it would be awesome and 5 stars!!!!!! It still has lvl5 minions and this update was centuries ago! Please let him know!!! by Non frequent flyer on 2014/06/29 11:45 Doesn'#39 t calculate Hog Properly.
