A total of six 40-minute episodes were released and released on VHS exclusively at McDonald's restaurants from October 9, 1998 to January 30, 2003. Producer Mark and Bob Motherbo (best known for composing music for Rugrats, another Klasky Csupo series) compiled a score of the series, while John Holmquist (who also directed some episodes of Rugrats) directed the first episode of the series. The artistic style of the series has a similar look to Rugrats and Rocket Power (another series of Klasky Csupo). Background music has been reworked from later episodes of Rugrats. In a format similar to super Mario Bros. Super Show!, each episode begins and ends with a live-action segment. According to various accounts, the episodes proved quite popular, to which individual McDonald's locations often ran out of VHS tapes that were sold individually for \$3.49 and could have been bought with a little vanilla ice cream or Diet Coke. Klasky Csupo also sold them through its online gift shop, which was closed in the fall Happy Meal featuring Lego cars for construction was released on the restaurant chain in 1999, a year after the series premiered. The front of each vehicle had an image of one of the Klasky Csupo-style McDonaldland characters, as depicted in the series. The talent cast of Main Voice in the series includes K-C veterans Kristin Cavanaugh, Kat Suki and Charlie Adler. Ronald McDonald's role is credited as Sam. Along the way, Fry Kids and McNuggets fall into traps and are separated from the group, while the rest face phantom heads in the challenge of mydies. Tika, Hamburg and Birdie fail every conundrum and sweep into the traps, leaving only Ronald, Grimas and Sandaia to decide the final thing they do. Holographic head turns out to be a kid named Franklin programming the game using Tica (who wanted to give mcnuggets in the lab room. After Ronald gets You Win from Franklin, Dr. Quiz returns to catch his son in the act and reveals that Franklin has done something similar before. Franklin apologizes to the gang for their actions and has the rights to join their trip on the campaign trail, becoming their new friend in the process. Note: Fry Kids' only appearance in the series. 2Legenda about GrimasIm DuffyMark Island Of Exile and Erik Casemiro Januari 22, 1999 (1999-01-22) Ronald and the gang embark on a trip to Grimas Island (where a species of Grimasa is discovered) after Grimas receives a letter allegedly to island residents asking for help. Unbeknownst to everyone, the letter was actually written by pirate captain Single-bee Sally and her first half Bleiter in a scheme of two to follow the gang to the island to capture grimac's legendary treasure for themselves. 3Respirators from SpaceJef ScottDavid RegalApril 23, 1999 (1999-04-23) Hamburg stunt gang in the belief that aliens came to Earth so he could steal McDonald's burgers without interference from them, which costs him their trust in him when they find out. Later, Hamburg gets kidnapped by real aliens after foolishly accepting an offer to go on holiday with them without realising until it's too late that the vacation will eventually keep him away from Earth for thousands of years. Despite being angry with him for lying and pranking, Ronald and his friends will embark on a mission to outer space to save Hamburg. Note: Ronald and Sundae go down the ball pit slide for the last time as it's the last episode to have the original introduction and closure. It's also the latest episode where Sundae appears in live-action segments. Before this episode there was an episode of Rugrats of the same name. 4Day of Birth worldAnthony BellDavid RegalAdditional Material by: Emily Kapnek and Erik CasemiroMarch 30, 2001 (2001-03-30) Hamburg is upset that he forgot Ronald's birthday and doesn't have a gift for him until an evil mad scientist named Professor Tadeus J. Wilson During their visit, Ronald and his friends quickly get frustrated, finding that most of the park's rides are broken and/or faulty; They then ride a roller coaster, which turns them into toddlers and babies with a beam. The gang then discovers they were test subjects for pinchworm's evil scheme to use a larger version of the beam for the world's de-age population to achieve worldwide domination. Even though the work has left their abilities limited, Ronald and his friends are set to stop pinchworm's scheme and rebuild themselves to their regular age. Note: A new opening sequence has been made for this episode and the next two. As a consequence, Sundae no longer in live-action segments, but the screen is turned off once. 5Steen, Will TravelAnthony BellEmily KapnekAdditional Material by: Eryk Casemiro and David RegalOctober 19, 2001 (2001-10-19) Helping Franklin clean up his father's lab, Ronald and his pals attack a time machine in which Hamburglar dreams of a crazy scheme to use a time machine to get out of cleaning, and they end up getting lost in time. Their time travel adventures take them to prehistoric times, where the time machine is almost digested by a tyrannosaur, and they meet their cavemen's ancestors, medieval times, where they entertain the spoiled young King Murray to save the captured Birdie, the Wild West, where they discover the ancestor of Hamburg's Henry H. Robber II (whom the inhabitants mistake Hamburglar) and the disco era of the 1970s, where they briefly encounter the mayor of McHigh. Note: The only episode where McNuggets is missing. 6Chudovysko O' McDonald's LoughEntoni BellBarbar Chardon and Jill GoriAddizable material: Erik Casemiro and David Regal Januari 30, 2003 (2003-01-30) The gang travels on a Scottish expedition known as O' McDonaldland Loch, where Sunda's cousin lives. They also came across a plot by a mad scientist named Stiles and his assistant Pip, trying to build a replica of the Loch Ness Monster to make money from the discovery. Birdie is friends with the real Loch Ness Monster, who is named Simon and wants his existence kept secret. Even though they don't keep secrets very well, Birdie agrees, but it becomes difficult when Stiles and Pip's scheme goes uninteresting, putting everyone at risk. Note: This episode was the rarest of all six since it was only released online on the Klasky Csupo website on January 30, 2003 as opposed to McDonald's stores. The episode was titled The Legend of O' McDonald's Loch on most websites. It was also Kristin Cavanaugh's last acting role since she was released about two years after her retirement.
