Google docs icon font

Wynand MeijerFor all those that don't work - it's not available or visible on .docx files you've downloaded from Google Drive. It took me a few minutes, but your file must be in the Google Docs format. So if you've downloaded a file .docx file (a Word document), just open it with Google Docs, click File - Save like Google Docs and save it as a Google Docs file. Now, if you open it, the ability to insert icons is under the Add-ons icons - Insert for docs, and works very well. A simple teaching or something like that would be a good idea. @Owner, if you want someone to shoot something, tell me. I do self-employment for small pieces like this. I can't find a list of images (.png, etc.) versions of Font Awesome icons. Not bad, did what it says on the box, but I wanted to use the favicons as links (in particular, I wanted to use the open URL in the new favicon window for links in my spreadsheet). If you can find a way to allow this, then you will really have something. Is this review useful?radio_button_uncheckedYesYour review, profile name and photo will appear publicly in Google's services?
