They were so busy trying #6, they missed their #7 answer. Here are some of me. No one has this question, technology in Classroom209366 ViewsLast adapted on December 18, 2008 11:43 a.m., movies and TV shows about Nikola Tesla celebrate the ingenuity, invention and imagination that brings to life on a grand scale. Nikola Tesla's bizarre vision of the future has failed him, but his genius elected the world. In 1893, Tesla installed his new ac current system, also known as AC, the same power we use today. Touring the forgotten ruins of Tesla's dream experiment: a huge tower on Long Island Sound, he hopes will drive the world wirelessly. Tesla claims to have created many incredible technologies: radar, deadly radiation, invisible devices and seismic machines. He had a lot on his mind, but he lost it.
