Download Landlord Tycoon – Money Investing Idle with GPS 2. Enter Settings / Security / Check Unknown Source (unknown source) 3. Then install until the end 4. Play this game Landlord Tycoon for Android Screenshots Download and install Tycoon Tycoon APK on Android In others to have a smooth experience, it is important to know how to use the APK or Apk MOD file once downloaded to the device. APK files are raw files from an Android app similar to .exe is for Windows. The APK means Android Package Kit (APK for short). It is the package file format used by the Android operating system for the distribution and mobile applications.
 In 4 simple steps, I'll show you how to use Landlord Tycoon.apk on your phone once you're done downloading it. Step 1: Download the tycoon .apk your device You can do it right away, using one of our download mirrors Its 99% guaranteed to work. If you download the apk to a computer, be sure to move it to your Android device. Step 2: Allow third-party apps on your device. To install tycoon landlords.apk, you need to make sure that third-party apps are currently enabled as an installation source. Go to the menu > settings > security > and check Unknown Sources to allow your phone to install apps from sources other than the Google Play Store. On Android 8.0 Oreo, instead of checking a global setting to allow installation from unknown sources, you'll be asked to allow your browser or file manager to install to .NET the first time you try to do so. Step 3: Goto Your file manager or browser location Now you need to locate the Landlord Tycoon file.apk files you just downloaded. If you prefer, you can also download a file management app here so that you can easily find the files on your Android device. Once you locate the Landlord Tycoon.apk file, click on it and the normal installation process will begin. Tap Yes when prompted to find anything. However, be sure to read all the prompts on the screen. Step 4: Enjoy Landlord Tycoon is now installed on your device. Enjoy! Are APK files secure? Ignore any entries or a site that says otherwise. APK files are generally as secure as a Windows .exe PC file so the most important thing to note is that you should always download it from trusted sites. You typically have nothing to worry about because we've provided some of the safest sites in our Apk download mirrors below. Thank you for reading this tutorial. Download your app below!
