With recent hurricanes bringing heavy amounts of rainfall to Forsyth County, many roads have been affected by flooding. Due to flooding from Hurricane Delta on October 14, the following roads will continue to be affected by the repairs: -George Court -Wallace Wood Road -Hawks Cove George Court will continue to have one lane open. Wallace Wood Road is closed at Two Mile Creek. Wallace Wood Road can still be accessed either from Jot Em Down or Waldrip roads. Hawks Cove Court is currently open. Once construction begins on this road, only one lane will be open. Any updates to the temporary road closures will be social media platforms. For more information about the current road closures, visit [www.forsythco.com](http://www.forsythco.com). Twitter Feeds for Traffic AlertsGDOT has 7 Regional and 16 Highway Twitter feeds for traffic alerts. Each feed is addressed to a specific highway or area, so now you can only follow the accounts that interest you! Below is a list of new Twitter accounts as well as links to them. Search for 511 Georgia in the app store. Cobb/Douglas/Fulton: I-285/I-20 West Interchange ProjectPer more information: [www.dot.ga.gov/I285I20W](http://www.dot.ga.gov/I285I20W) Project I-285/I-20 West Interchange requires improvements in the exchange and addition of lanes along I-20 counties in Cobb, Douglas and Fulton counties. Additional work includes the construction of a corridor-collector-distributor (CD) and the modification or replacement of bridges along the I-20. This project, once completed, will provide more efficient traffic flow through the exchange. There's no traffic flow? Zoom in closer or refresh How to use the Forsyth County Traffic Map traffic flow lines: Red Lines = Large Traffic Flow, Yellow/Orange Lines = Medium Flow and Green = Normal Traffic. Black lines or No traffic flow lines could indicate a closed road, but in most cases this means that either there is not enough vehicle flow to register or traffic is not monitored. Also, if you don't see the flow of traffic, you can zoom in closer to reveal translated data. If you can't shift the map, click here (to focus away from the map) and try again. Traffic incidents (beta): Each dot represents a traffic event or incident, such as road construction, closure or accident. At nearer zoom levels, these bullets can be pressed to see more information. Once a layer of traffic information has popped-up, be sure to press/click on any additional arrows (e.g. 1 of 3) in the upper right corner above the title to see other details of the impact. Impact Legend: Critical Major Little Low
