Cosmic campground nm

A Brown Forest Service sign in front of the CCIDSS entrance is located about halfway between MP 37-38 marked by signs from friends of the AAH Cosmic Campsite. Turn around, cross the cattle keeper and drive 1.3m. Get to CIDSS. Remember: you are guests of the Gilat National Forest and are responsible for your children and pets. Experience: The natural Milky Way of the night sky rising above the clusters of the discovered wilderness star, galaxies, planets and moreBring: binoculars, or a telescope if you have an open-minded one to visually explore the natural night sky horizon for peaking. Food and water [local markets and restaurants are good but limited hours] If you need it / Bring it a container full of gasoline [local gas stations close early/fill on the way] Folding chairs, folding table if you want one, etc. camping equipment stay in lile with pleasure to honor your Stargazers colleagues: no headlights or white lights after dark. Night vision is required to enjoy Sky.if you look at a white light from your flashlight or cell phone you will not be able to enjoy the natural night sky wonders for 20-30 minutes. There is no parking in the observation area there is no camp fires on the observing area or other hardened surfaces there are no generators from 7 p.m. to noon. No white lanterns no fork your flashlight you need to make a red written plastic filter for your flashlight and attach it with a rubber band. You should be able to view star maps etc in a dark area with this arrangement. Your night vision will be at its best if you don't look at a white light for at least 30 minutes. You need to do the same for your mobile phone or save it to allow your eyes to see weak objects. If you look at white light from your mobile phone you will not be able to enjoy the wonders of the natural night sky for 20-30 minutes. County Ranger Eric Stemmerman Glenwood Ranger DistrictPO Box 8Glenwood, NM 88039[p:575 539 2481]E:erickstemmerman@fs.fed.us Glenwood [13 miles south] Felston [24 km south]Click on more natural night Sky Country Double TT Homestead [21 km south] This is a small campground on top of a hill, so great for stargazing! It is scattered camping (yes, free!) and has two safe toilets. We will never share their private information during this hotel. There's a great gravel car park for RV's, and plenty of room beyond that for tents. However, there is no shade, so watch out for the summer afternoon. Maybe that's why there was hardly anyone there, but it makes for a quiet and non-invasive stay. Also, there are some free range cows, so watch out for cow patties. 11/20/2020 Night Rate: Free! Days left: 2 Site Number: 5 How cool to just happen on the world's first international campground of the Dark Sky Reserve! We saw it when we drove back and went back. We were so glad we did it! It's small and it fills up fast. We rolled. At 1.30pm we received the last trailer site (I think there were 6) on Wednesday we arrived. The tent camp ended up fill... More access to location cleaning site Quality Noise Verizon 4G/LTE TheTravelingTaub's will stay here again This review is the opinion of a Campendium member and not of Campendium.com reviews 10/31/2020 Nightly Rate: Free! Days remain: 3 Site number: 2 was coming down from the NP toe forest on October 22, 2020. Stayed here for 3 nights. Getting there between 12 and 2 that by 4-5 cushion 6 RV will probably be full. But going down a gravel road to the gated camping area and guarded cattle have a number of ideal places for diffuse camping which is not too different from CG o... Share it here! The Milky Way erupts over the Cosmic Campground, New Mexico, with the lights of Morancy, Arizona, on the horizon in the distance. Photo by David Thornburg. Cosmic Campground is a 1.42-acre site in the Gilo National Forest in western New Mexico, USA, between the Gilo wilderness and the primitive blue range area, and is located on land managed by the U.S. Forest Service. The campsite is located in an exceptionally dark part of the 48 lower U.S. states, with the nearest significant source of artificial light more than 40 miles across the state line in Arizona. The campsite has a very basic infrastructure to support campers and offers 360-degree uninterrupted night sky views. Region mode: Dark Sky Sanctuary International Open Cosmic Campground (CCIDSS) is the first international dark sky reserve located on the lands of both the national forest system and North America. It is also one of only 10 certified IDA shelters in the world. The International Dark Sky Reserves are lands of exceptional or distinguished quality of star nights. Learn more about dark skies, light pollution, or the International Dark Sky Association. CCIDSS offers uninterrupted 360-degree views of the night sky, and often hosts Parties in cooperation with the partner group friends of the cosmic campsite. This site is located where there is the nearest significant source of artificial light is more than 40 miles away, and across the state line in Arizona. . Night vision is necessary to enjoy the night sky. If you look at a white light from your flashlight or mobile phone you won't be able to enjoy the natural night sky wonders for 20-30 minutes. In order to honor your fellow stargazers the Forest Service recommends: no parking on observation pads/telescope no camp fires on observation pads Use a red filter over your flashlight lens Try to arrive before dark, so your headlights don't distort your night vision and quiet times (no use of generator) between 10pm.m. And 6:00 a.m.m. CCIDSS is a primitive campsite with minimal site facilities, including an information kiosk, pit toilet, and four concrete telescopes/observation pads. Currently, there is very minimal shade available however, future planning developments intend to establish a shadow pavilion as well as improve individual campsite facilities as funding comes in available.
