Sword art online hollow realization walkthrough guide

Link Data Walkthrough starts the game and first creates a character to name. Choose a gender Choose hair, hair color, look and sound. When you attend an event, it's a kiritto sound. Once the character is created, the game becomes a tutorial immediately - the first game is taught to press squares, normal teeth and triangles. Use sword skills and weaknesses - Teach combination ratio and Just Attack by making a combination of x2.00 - after which you can avoid stealth by pressing R1 + x to dodge enemy skills. After all, the game cuts into the city - the game shows that the city has four parts to walk through all parts of the icon event - go to the teleport pole to go out, the game teaches you how to invite npc to a party. Who hasn't approved the assignment on the board first, and Teleport can go on the first map? - Run directly event fragment / Replace, press L1 + X, while enemies can stun skills / Press L1 + O or R2 to add sp + 50 - Make an event fragment by hitting a boar ready for the head. The game asks if you're going to warp back into town. - Back to the hotel in the commercial area. Event found - Go to the teleport point to find the event and let the teleporter go out on the first pitch. Liz asks us to find the copper ore, give the teleporter to Phil first so we can run to the next map. When you enter the next map, first open the Teleport point. Copper ore is located in the lower right corner of the map, you can click back into town from the Menu page and select Map. - After the event we are on the second floor of the room itself, the game tells us that we can change the avatar ourselves from this room / Teach us how to increase the relationship between the chat system / Hold on to the bed, this is not difficult to understand as it is the same, change the avatar here. I go to the second floor and go back to the second floor room - go to the teleport point to find after the end of the event, run 3. Let's run down to the area below. You'll see a purple event map in the middle of a run to NM Golem. When you win, you'll get your heart back and put a golem on your mattress. Fight NM Golem and you can move on. - The next map is the valley, run to the next map, you don't have to rush to the top. You'll find a way to collapse a rock on the road, NPC finds two things to make a bomb: 1.Fire grass seeds, run back to the previous map valley, you'll see a symbol on top of it (warp to a newly opened teleport) 2.Conical dragon on the left side (starting with getting the bomb). When you enter, you will see an event in the middle of a map of the fragment symbol to fight one dragon NM. When you win, you get your nails. - Run back to the rocks from the NPC to create a bomb to open the way forward. - After this, there is nothing long on the way to the castle. Don't like to open the teleporter on the way. Open the teleporter, go to the entrance first, run straight to face the event - then run to the castle on two maps until you find a purple event in the lower right corner, manage 2 NM, get a key item to open the next map - to the front of the boss's room and first enter Teleport. The boss can always be jenered into another fight, but it's not raid party anymore. - Run to the conversation, there is a question to choose from, choose the lowest, have no questions and answer the first question to get to bosslod. -After that, the game teaches the Raid Party - fight the boss wins, and you get the warp back in the room. immediately, open the multiplayer mode - run out of the bar, find the event, then run the teleport point, find the event, open a new area, the event list. - Feed to the café 2 times on the observation deck (2 Event) - Warp next to the next one to map. When you arrive, turn around and find your way to the basement, and you'll find an event where one of your enemies is in the way. It's immortal. - Come in, open the teleporter and run to the next map. -Go to Teleport and then to the top left, you can see the grey circle, it's a way to walk downstairs first - come down and go down the long corridor, nothing, go up and turn the teleporter onto the map, you'll see the event point, and then Algo can't send us a message back into town, then push back from the menu. - Come back to town. We'll take the reward off the field. If you die, the game is over immediately. - Go to the board to receive the task alone. - Find Klein alone. When you enter the observatory, there are 3 additional events in the same place that get cg with a completed -Clear event, back to the last map. Walk in a poisonous fog from the map on the right. - You can find event fragments in purple circles at the top of the map to get rid of enemies, and you can clear them. This time we can get rid of the toxic fog. It's a great place to stay if you're looking for a place to stay so you can go down underground to get there, run straight to the other side and then you'll see the event. - Get rid of it, warp back to the earliest map of this area, run back to the underground back. At first we couldn't go because there were monsters on the road. Now that we get rid of it, we're going to run out. If anyone has Liz at the party, they're separated. Before we get back to town, run to the teleporter and warp back. - Come back to town. Event Liz opened a new store. Now we can hit Liz's gun. - Talk to Yuk when you are alone. - Go to the warp door, find the event. Open the Teleport point and travel underground. Let's find a way to stop the toxic rain - go to the scene in the upper left corner of the bar to destroy, and then the toxic rain stops. -When you go out, you find an event to return to the city, open a teleport point, then warp back into town and find the event - find the event - go to The Only Firia (CG). Map of Rustoria Plains at the top left - If we go to the observation deck, there are two more events, let's go to the café at event 2, clear the event, go back to the last map and run to the cave on the second floor. - The cave on the second floor can run to the next map. On the way to the next one is baria croiding, get rid of one of the NM lv23s, and the third-floor cave opens the teleporter, and then the map boss selects the lowest answer. The first one wins and gets the wart back in his room. - Run down to the lobby and run back to a new place, go back to the room, run down and run into the room again. We find another event, get out of the back room, go down the sidelines and run down underground, run to the right, run to the right, go to the event, go back to the room, get out of the room, get out of the kitchen, go back, run back, go back, go down underground, and run down underground, run to the right, then go to the event, go back to the room, get out of cooperation, find the event, and then you find a huge event. - Go to The Only Firia (get CG) - Go look for chinon alone - Go to the café on the observation deck, there are 2 events (get CG) - Talk to Asuna (get CG) - When the event is over, go to the teleport to open a new map - return to the last event, get the last event, get out of the party and go to Rustoria Plains, the first point will see the symbol of the event - Map Jeweled Peaks Peaks Lakes Lakes - start running to the next map. -Come in and open the teleport point, run straight to the event to find a way to get the warp rack up and running. -Go to the map exit above, you will find a closed path, get rid of NM and open it with the key of 1 warp tray. -Map next, come in and open Teleport. This time we're southeast to the east, running back and forth to open the teleporter first, then running long inside. - After a long drive-through. First there's NM, which is to be destroyed and then a way to open. - Run to the map on the north side, you will find the right boss and you will return to the city to inform everyone. Don't forget to turn on Teleport first when the warp returns and you find the event. Get ready, and Warp is back in Bosslod (as you've been there before). When you win, you'll be bounced back into the lobby, you'll find an event where Genesis gets frustrated that we're meeting the real boss. When you enter and open the teleporter, you will see 2 transaction points, the left point, which we need to close the console panel completely before it reaches the bottom. -Next, warp on the bottom map and enter the door with the event symbol in the lower left corner, you will find one NM, kill it. When you step in, you will see the event symbol in the upper left corner and you will find 4. When you enter, you will see an event symbol on the top door. There's a left-right exit up there. - When I come in, run to the right House of Commons. Near the teleport point in the middle, you can find a circle in front of the room, running in to fight one of the NM's, and the seal loosens. - Return to the previous map, this time to the right exit. - Run to the right lower house with the chest, you can see the seal on the floor, run straight in and fight one of the NM. Once the victory is won, the seal loosens. You can see the exit behind the teleporter - come in and open the teleporter, run to the top left corner - Open The Teleport, run straight to meet Boss Genesis (press parry to hold on to the win). Find a long event - go for phil's reward by bickering at a teleport point in town - for Phil, running far to the next map, and the event will be found. Invite Premium to a party and talk again. First choice: The first is warp to the entrance to Ainkhrside - run straight along the way, go to Teleport, go inside, find NM when you win, then it's an event back in town - a forced figure pops up, bounces that it can be wrong for Aincras - warp on the Aincrad plot!! - the story here kills NM in front of the entire entrance, which is not complicated for a big boss. - The first warp with the first NM at the door. -Enter the following map and open the teleporter, run in front of the door, run to the next nm, and then 4. I have to win them all. (NM, there's no family right in the chest) - next to the boss's room, come in and open the teleporter, run straight to find the big boss. - Before the match, the boss had a list of girls to choose with who to stop with. I want to end up with anyone, but you can take your place. So let's go again , so pick it up - and finally the big boss has to fight twice to finish after opening the gallery space in front of the menu - Stop - (visited 37,843 times, 1 visit)
