Hi Gameloft Thank you for listening to your reviewers Now Gameplay has almost close ultra graphics and it is more optimized and playable and all network issues are fixed. I'm very satisfied with this new update the only thing that I still don't like is that this game is still not fully optimized it lags a bit but not as much as it used to on my Note 8 and I want controller support on this game. If you fix these 2 issues This game would be one of the best shooting games ever And I will rate this game 5 Here we provide Modern Combat Versus V 1.3.14 for Android 4.0.3 We provide Modern Combat Versus: Online Multiplayer FPS (Unreleased) APK file for Android devices and up or Blackberry (BB10 OS) or Kindle Fire and many Android phones such as Sumsung Galaxy , LG, Huawei and Moto. I remember when I first learned about it just about the world, because I still played in the second and first part (it was like the year 2011-2012). Graphics: Pleasant (for 2011 in general top) Management: smoother, you can customize gameplay: excellent Plot: 8 / 10 In general, the second part is still but much more beautiful, smoother and more beautiful. If you didn't play, I advise you very much. In fact, Modern Combat is a kind of clone of the series Call of Duty: Modern Warfare, you can say its excellent and more interesting, as well as mobile version. The best parts in fact (well as for me), it's 2, 3, 1 good and 4. Initially I thought 4 was the best part of the series, but when GG my previous favorite of the second part was killed, my opinion changed a bit. As a result, 5 shit dog, because the plot is not finished and no, the characters in Nounama (except Saunders from 4 parts), the management is crooked, and the balance in multiplayer is not at all. About MC: Versus I'm generally quiet, also left TIPO MC: Versus but earlier and on PS 3. In short, I told you about a series of games that remained with me for a long time in the shower. Soull.
