## How to put pdf file on wix website

DocsIntegrationsAPI Credentials Upload APIREST APIFile Uploader APIWix is a free website builder. With Uploadcare, you can allow your users to submit media through forms, without any hassle about storage or upload interface. In just 5 minutes we build a working upload form via Uploadcare File Uploader with only a few lines of code. Our responsive and mobile-ready File Uploader came as a standard JavaScript library. Technically, File Uploader replaces your base &#lt;input type=

file&#gt;controls, which then become buttons that activate the file uploader dialog box. Every piece of content uploaded via Uploadcare is immediately cached on our CDN and delivered quickly and reliably in more than 130 countries. What does it look like for an end user? Let's say you need your users to upload scans of their documents. With File Uploader integrated, they see an submission form where they can easily add PDF files to your Wix website. But of course, it's not just about PDFs. Images and video files stored in different sources, from local folders on your PC to social media, can also be uploaded to Wix.So, let's get started. Add a PDF to WixBefore we start, let's make sure everything is in place. First of all, you need a Wix-powered website. If you don't have one, you only need a few clicks to create one. Secondly, you need to have an Uploadcare account. If you don't, sign up for one. After you create it, navigate to your dashboard to create a new project, or discover your public API key for an existing one. Besides, if you plan to let users submit non-image files through your form, add billing information to your account. Now that you're set up, go to your Wix website and proceed to the next step. Go to the Wix editor and open your website. Use the toolbox on the left to place an HTML element on your page: press the plus sign, then click More, and choose HTML iframe in the Embed section. If you upload HTML to WixNow, place the element on your Stage. Make sure the block width is at least 760px to ensure that File Uploader is displayed correctly. Select the block you just placed and click the Enter Code button. A settings box with two options appears: a Code radio button and an HTML code box. Copy the code below and paste it there. Remember to replace YOUR\_PUBLIC\_KEY with the real Public API key you got after signing up for Uploadcare. &#lt;script&#gt; UPOADCARE\_PUBLIC\_KEY = 'YOUR\_PUBLIC\_KEY' &#lt;/script&#gt; &#lt;script src= uw vraag in&#lt;/legend&#gt;&#lt;form&#gt;&#lt;p&#gt;&#lt;label for=email&#gt;E-mail (e-mail)&#lt;/label&#gt;&#lt;input type=email id=email name=email&#gt;&#lt;p&#gt;&#lt;label for=question&#gt;Uw vraag&#lt;/label&#gt; &#lt;textarea id=question name=question&#gt;&#lt;/textarea&#gt;&#lt;p&#gt;&#lt;p&#gt;&#lt;label for=images&#gt;Uw bestanden&#lt;/label&#gt;&#lt;input &#gt;&#lt;/input &#gt;&#lt;/form&#gt;&#lt;/fieldset&#gt; &#gt;&#lt;/form&#gt;&#lt;/fieldset&#gt; id=files name=files role=uploadcare uploader data-clearable data-images-only data-crop=free,2:3,4:3,16:9 /&#gt; &#lt;p&#gt;&#lt;p&#gt;&#lt;p&#gt;&#lt;button type=submit&#gt;Send&#lt;/button&#gt;&#lt;/p&#gt;HTML code for Wix uploadThe data image-only option is in the file uploader configuration to provide a fail-safe experience when working with accounts on the free plan without adding billing information: these only allow uploading images. Click Update, and you're done integrating the file uploader. The final appearance of a File Uploader for WixYou can rearrange the order of blocks in the Wix editor by moving them up or down a layer. Make sure your form is in the top layer (Ctrl + Shift + → does), so that no other elements block the view when the dialog box is activated. Note that Wix places external HTML in an &#lt;iframe&#gt;element, which is not guaranteed to be responsive on different devices. Test the created form to make sure it appears correctly on your users' most popular devices. You have just built an upload form via Uploadcare File Uploader 🎉 Now you and your users can easily upload files to Wix; they are all automatically optimized to provide the best page loading speed, fit any screen, and take up as little space as possible. Check out our documents to learn how to power each web app with a ready-to-use file platform: uploads, browser image editing, media processing, and lightning-fast CDN delivery:Image editing in the browser via File Uploadcare ConceptsIntegrationsIf you have any questions, you can place it in our community. Was this page useful? Schedule DemoAsk Community Do you want to share your PDF documents on a Wix website? There are several ways to do that. To share a PDF document, you must first upload the document to your website's library, except when using Google Drive for your documents. Upload a document to your Wix website:Click Media on the left side of the Editor.Click the Upload Media icon. Choose your file(s) from your computer. There are several ways to display your uploaded PDF document on your Wix website: Add a document button. Link a document to an element on your Wix website. View Google Drive documents directly on your Wix website. Display PDF files directly on your Wix website with the Wix PDF Viewer.When you upload a PDF document to Wix and display or link it as a document button, you unfortunately change the document to something like 5cf02b\_2e94bc23d92344138f50aa8c5780671e.pdf instead of using what you use your file in the media library Called. This is a problem if you have files that customers need to download with file names that tell them what it is (such as Welcome-Package.pdf). If you use Google Drive or the Wix PDF Viewer, PDFs open directly in the browser window, instantly displaying the linker and giving it the options to save and print the file. When they download the PDF file, it retains the &#lt;/iframe&#gt; de&#lt;/iframe&#gt; that you originally used when uploading to Google Drive so your users can easily identify it. Add a document button Allow visitors to download documents from your site with one click. Just choose your button and add your document file. Add a document buttonClick Add on the left side of the editor. Click More.Click a button under Document buttons or drag it to the relevant location on your page. Select your document or click Upload Documents. Click Add to Page. Associate a document with an element on your Wix website Associate your element with a specific document, such as an image or button. Visitors can download the document by clicking on the element. Associate a text element with a documentClick the text element. Click Edit Text. Highlight the relevant text. Click the Link icon. Select Documents as the link type. Click Choose File and select your file in Media Manager.Choose whether your link opens in a new window or in the current window. Click Done.You can link to an image or another element in a similar way. Just click the element and click the link icon. View Google Drive documents directly on your Wix website. Google offers this free cloud service, called Google Drive, where you can upload up to 15GB of files for free. The Wix App Market's Google Drive app lets you view every file or folder you have on your Google Drive. Just connect the app to your Google Drive and select what you want to show. Add and set up the Google Drive app:Click Add App on the left side of the Editor.Use the search bar to search the Google Drive app. Click +Add to Site to add the Google Drive app. Click +Add App to confirm. Open the Settings panel of the Create an accountA file to viewEdit your settingsAdvantage app designAdvantage from Google DriveWhen you upload a PDF document to Wix, the document is unfortunately renamed to something like 5cf02b\_2e94bc23d92344138f50aa8c5780671e.pdf instead of using what you called your file in the media library. This is a problem if you have files that customers need to download with file names that tell them what it is (such as Welcome-Package.pdf). If you use Google Drive, PDFs open directly in the browser window, which immediately displays the viewer, and it gives them options to save and print the file. When they download the PDF file, the file name you originally used when uploading to Google Drive is retained so that your users can easily identify it. Display PDF files directly on your Wix website. Wix an app called the PDF Viewer app to embed and display PDF documents directly on your site. Adding this app to your Wix website is very easy:Click Add App on the left side of the Editor.Use the search bar to search in the PDF Viewer app. Click +Add to Site to add the PDF Viewer app. Click +Add App to confirm. Open the Settings panel of the appUpload a PDF fileSelect a layoutEdit screenEdit screenEdit app settingsOther apps to embed a PDF on your Wix websiteThere are several other ways to embed a PDF file on your Wix website:POWR has a free PDF Embed template for Wix websites. Upload and embed a PDF flipbook on your Wix website with Floupaper.Do you want us to design a beautiful, functional and relevant Wix website for you with a blog? Contact WixCreate, we create an online presence that works for you. U.
