The shape corresponds to the feature, as CHIRP is not only a practical object, but also adds a beautiful aesthetic to its interior. A welcome departure from synthesized sounds from a mobile device or a regular alarm clock, CHIRP wakes you up with gentle light and blissful sounds of nature. Wake up feeling refreshed, energetic and ready to start every new day. CHIRP directs your transition from quiet sleep to peaceful awakening. It intelligently mimics the sunrise with the intensity of light, gradually increasing 20 minutes before the alarm sounds. Soft Soft light promotes the state of rest. The second element below is the sounds of nature that define the function of sound. This will trigger the selected alarm time. The result is a daily awakening ritual, which is naturally not bothersome and promotes a general sense of well-being. As a messenger of nature, CHIRP brings the sound of nature to your intimate environment. While playing CHIRP, you feel like you're in a picturesque environment surrounded by trees, bird chirping, floating water or flowering flowers. Help yourself to keep in balance and let your mind relax. Download the DAQIChirp app available in the App Store to customize your personal preferences. The sound and time you want is synchronized by audio. This technology is without any wireless communication and issues no more signal. As a result, CHIRP facilitates a healthy sleep environment without interference and has been designed to be placed safely near your bed. The black marble variant has a hand-made white ceramic bird on the base of natural black marble and steel perch. What's in the box? 1 x Chirp 1 x USB power cord 1 x one USB 240v power plug 1 x instruction manual CHIRP is a unique alarm clock that combines superior light and sound technology with traditional craftsmanship.
