It operates on html5 canvases, so your images are created directly on your own device. Most commonly, people use generators to add captions to established memes, so technically more of a meme captioner than a meme maker. However, you can also upload your own images as templates. How do I customize my meme? You can move and resize text boxes by dragging them. If you're using a mobile device, you may need to first check the drag/drop enable in the More Options section. You can customize the font color and outline color next to where you type your text. You can then customize the font in the More Options section, and also add additional text boxes. Imgflip supports all web fonts and Windows/Mac fonts including bold and italics, if installed on your device. Other fonts on your device can also be used. Note that Android and other mobile operating systems can support fewer fonts unless you install them yourself. You can include popular or special stickers and other images including asshole hats, deal-with-it sunglasses, speech bubbles, and more. Opacity and resize are supported. You can play, flip, and crop any template you upload. You can draw, decipher, or write on your meme using the panel just above the meme preview image. You can create a meme chain of multiple vertically stacked images by adding a new image settings under the current image. Can I use the generator for more than just memes? Yes! Meme Generator is a flexible tool for many purposes. By uploading custom images and using all the customizations, you can design many creative works including including banners, ads, and other custom graphics. Why is there a imgflip.com on my meme? Watermark Imgflip helps others find where the meme was made, so they can create memes too! However, if you don't find the meme you want, browse through all the GIF Templates or upload them and save your own animated templates using THE GIF MAKER. Do you have weird AI that can write memes for me? Funny you asked. Why yes, we do. Here you go: imgflip.com/ai-meme (warning, may contain vulgarity) First· PrevNext › Loading ... Loading...
