Related article: Darkness Rises Hack Free Gems and Coins No SurveyTIPS, TRICKS AND CHEATS ON MAPLESTORY M GAME (AUTHOUR: TIM AT LEVELWINNER) NEXON is a company that specializes in anime-based RPG. They developed Darkness Rises, Dynasty Warriors, Fantasy War Tactics and many others. The latest entry in this category is MapleStory M, which is now available for iOS devices as it brings the original MapleStory to mobile, giving you an authentic MMORPG experience where you can choose a character, or an Explorer and one of the five classes, create or form a guild, and team up to defeat some of the most epic bosses in Maple World. There are live game events, various dungeons to crawl through, and no shortage of quests to complete. Will you be lucky and skilled enough to make it all the way to the most raid boss, and complete the epic story that supports this highly mobile mobile so much to learn about this game and it will soon become clear. We cover the MapleStory M strategy guide for beginners covering all the essential areas to be covered. Read on if you have problems with, or overwhelmed by, every aspect of the game while in the earlier stages! But still the best way to get free cystalser on MapleStory Games in Android and iOS device was to use the latest MapleStory M Hack Cheat Online.CHOOSING A CHARACTERThe first thing you need to do in MapleStory M is to create a character – your role is that of an Explorer and you have five classes to choose from. Let's take a look at each of them. Dark Knights, according to the game's description, are mega beefy tanks with ridiculous strength and endless HP. Like your typical tank, their attack (ATK) stats are not too special, but they have a lot of hit points (HP) for extra durability. Bow Masters are varied characters, masters of bow and arrow that could launch attacks from afar. They are a little squishier than the Dark Knights, but not the squishiest of the bunch. Night Lords has high ATK stats and average HP. Bishops have additional ATK points and higher magic points (MP) than most, and are similarly squishy as the Night Lords are, tied for the lowest base HP among the five classes. The game calls them skilled magicians who control crazy powerful explosive spells. Finally, corsairs are almost like tanks due to their high HP and low ATK. At the end of the day, it's all up to you - your choice of character depends on your preferred style of play. Since you have five character save slots, we recommend trying each of them for yourself to see which one suits you best. STAY IDLE AND AUTO-QUEST, but take over when neededAs you'll find out soon enough, playing MapleStoryM can be deceptively easy. The game will be to control all your actions as you do what needs to be done in search - moving around, climbing ropes, teleporting, killing monsters, you name it. By default, the only time you resume control is when the hunt is done, and you talk to the non-playable characters who had given you the quests – or villains that you had just defeated (but not killed). This also applies in the middle of a quest when there is dialogue between your character and any NPC. While enemies you will be exposed to are generally easy enough to polish off. You should also have several potions at your disposal for use during the hunt. Consuming them is also covered by AutoQuest. It also carries mention that there may be some situations where you need to take over. The AutoQuest AI is smart, but not as smart as it should be if you are the one handling control and taking care of monsters themselves. REWARDS, REWARDS AND EVEN MORE REWARDSDes the rewards you earn for quest completion are one thing and these will usually include: common currency Points (EXP) VIP Teleport Rocks, new weapons, items and potionsBut there are tons more rewards available in the game that serve to complete the missions. These can include Mesos, Refining Powder Choice Boxes, Gold Leaves, and more. You can access event rewards, attendance rewards, and residual rewards by tapping the calendar icon. Event Rewards are for monthly attendance, or daily logins, withdrawing tickets. Attendance Rewards is based on the duration you remain logged into the game and usually includes Mesos and food for your pets, and Rest Rewards, which also comes in the form of Mesos and Refining Powder Boxes.WITHOUT USE MAPLESTORY M HACKAs you have also been given your tasks, which are based on time-bound daily milestones. Results based on cumulative milestones (reaching level 15 collect 100,000 Mesos, etc.) and weekly missions based on weekly milestones. These will earn Gold Leaves, which are used to buy goods in the Gold Leaf Shop. Also, be aware that many rewards will be sent to your mailbox, which is represented by the envelope icon in the menu at the top right. You will have to go there to redeem these items! As a bonus tip, the gift menu does not refer to additional freebies! This is actually where you can buy special packages that you can use to help improve your character, including crystals, which are game hard to acquire premium currency. Join the Dungeon RaidsOnce you reach level 15, you can collect high rank entries by completing the Elite Dungeon. On level 25, you have the Mini Dungeon to conquer. The game says this will help you level up quickly. These are just three of the available dungeons in the game. It always helps to break the monotony of questing by getting involved in these dungeon raids. The best part of them all is that a lot of them allow for co-op raids where you can work with other players to defeat the evil monsters! Just a piece of advice for Elite Dungeon raids. They could take a while to complete if the Zombie Mushroom boss could instantly get you! You will have the opportunity to use Respawn Tickets to revive yourself and give yourself a chance to beat the boss, but be aware that these can only be purchased with Crystals.WHAT ARE SWEEP TICKETS? Sweep Tickets are used to instantly defeat monsters in the Elite Dungeon without fighting. These can be earned as rewards for completing certain quests or results (see the third tip), but there are catches when it comes to using these tickets. First of all, you can only use a Sweep ticket at an Elite Dungeon that you have already completed. Secondly, you should also consider Sweep Chance before using one – in other words, using a Sweep Ticket is not a guarantee that you will be able to perform a successful sweep! If the chance is quite low, low, better off not using one of them in the meantime. Crystals - how to get them and where to use them without using MAPLESTORY M HACKThis is something you've probably wondered about. When we first mentioned them in rewards tips and talked about them, almost in passing. How can you acquire them anyway, apart from buying them at the Cash Shop (the one with the shopping bag icon) for \$5 USD and up? For the most part, you will acquire these crystals by completing some quests in the game. This means you can probably fight without them while in the first 20 levels or so. You can buy a variety of items with your crystals in the Cash Shop. You can also buy new and higher end pet sidekicks at the Cash Shop, as well as aesthetic changes. But we would naturally suggest courage to use your hard earned crystals to complete dungeons. Pets are also a good choice as they can improve your stats and make things easier along the way. JOIN A PARTYMapleStory M, at the end of the day, is an MMORPG, and that means you'll have to get social at some point and attend a party. These allow you to explore different parts of the map in the game together. Remember that Maple World is quite a large and expansive in-game universe. The parties may not exceed 10 players. It goes without saying that multiple players means a better chance of surviving some of the toughest dungeon bosses in the game. IMPROVE YOUR EQUIPMENT ALSO WITHOUT USING MAPLESTORY M HACKTAP on the bag icon to lead you to the Pose screen to find items you have collected. Make sure you improve these pieces of equipment by leveling them up, at least. Make sure you have enough Mesos on you, as well as upgrade materials, primarily Refining Powder. On the Level Up tab, you'll find the Rank Up tab, which allows you to rank a weapon or other equipment that has reached its maximum level; This in turn will require Mesos, the item, and upgrade materials to complete the recipe. You can also melt two pieces of equipment that have reached the maximum level or improve them with Mesos.MAPLESTORY M HACK CONCLUSIONUsage of this tool was updated daily, so if you found some bugs reach us out. All our game hacks that were published here were all free. MapleStory M Hack getting free crystals is one of our masterpiece that delivers you the fun of enjoying your game. It's guaranteed and proven working so nothing to worry about. About.
