His data won't be in the pokedex though. I've only tested the code on the red version, but I assume it works on both versions. He will only get the lv that the pokemon you caught, so I would go to the mysterious dungeon to get Mew because there are more powerful pokemon there. This pokemon can be traded with the link cable and as far as I know it will not damage both games stored data in any way Get Mew (A Better Way) submitted by Jay First enter 0115D8CF. Then go into a patch of tall grass and walk around until you get to a fight with a Pokemon. It must seem glitched. Capture it. It should be a Mew. Once you catch it, it should be normal, and *GLITCH FREE*. The PokeDex even updates data! Have fun with this one. Level up L255 You put 1FF8CD1 and your first Pokemon in the list will be 255 level ok Get master balls) By Atp191@aol.com 10/20/98 01011ED3 (Please note: Make sure you have nothing valuable in the items box because it will remove these items and override them with master balls.) Be careful while using the master ball code it is known to make the game very boring and unexciting because of the ease of catching the pokemon. I would only use the master balls on the three birds, Mewtwo.
