Even if they do homeschooling or virtual learning this fall, it's still important that every student is properly equipped to have a successful school year. Whether you start from scratch or sort through a year of past stocks, use these checklists, which are broken down by grade from - elementary to college - as a guide. If you really want a stress-free summer, print out a list that suits your needs and bring it with you to the store so you can get in and out quickly. Or do your school shopping online - pens, backpacks, mini refrigerators, and more - so you can enjoy your final days of the season. Just getting started?
