Les pages par lettre énumèrent les artistes (avec leur plus grand succès entre parenthèses), cliquez sur le nom de l'artiste pour voir leurs tubes dans l'ordre chronologique. La position de pointe de chaque chanson est donnée, avec ses semaines sur le graphique, les semaines à la position de pointe, et la date de sa 1ère semaine à la date de pointe. Les données des graphiques sont basées sur le magazine Radio and Records et fournies avec la permission de celui-ci. coded: Top 10 - Green Box. #1 - Purple Box. Note: In 1973 and 1974, the R-R chart was only a top 20, although inconsistent - some weeks, the table would be top 22, top 23, top 21 variable ---. At the end of the year, it went into the top 30 and finally a TOP 40 chart for the first time on 29/11/74. Therefore, if the column weeks in the graph has a star next to it, it means that the weeks on the chart could mean weeks on the top 20, top 24, top 30, etc. a non-top 40 graph of inconsistent size. The top 40 chart of 29/11/74 lasted until 10/8/76. The table of 15/10/76 was a top 30, and remained so until 1983, so weeks on the chart for the song hit in that period means weeks on the top 30. From June 1983 to May 1995, the picture was again 40 songs, and in May 1995-present, the picture was 50 songs. NOTE: If a song doesn't have a chart related to it, you can assume evidence for their graphic run and there were no re-entries or bounce to and from positions. That is, if a song peaked at #39 on 2/8/87 and entered 2/1/87 and had 2 weeks on the chart, then it was #40 2/1/87 so no graphics race page was needed. Same situation with 3 weeks on the chart, also means song was at #40 on 2/15/87, etc. Of course, it depends on the total songs on the chart, 30, 40 or 50 (see above). If a song hasn't had a graphic print that can't be determined from the information given, I include a graph running for it. The dates of the graphs are now the Sunday of the end of the week the data are collected. so the graphics go 8/4/06 (last R-R chr/pop chart using mediabase) - 8/6/06 - 8/13/06 - etc 12/16/14 - I finished all the song data and song run links, A to Z! If you see something songs that I don't link to or broken links, please email me an email on the link below! (If you don't find a song that you think mapped, especially in the '70s or early '80s, it might have hit the Billboard Hot 100, or been on your radio station a lot, but probably DIDNT hit R-R CHR CHart (which was only a Top 30 chart for a stretch). You can check with me if you are 100% sure that I missed a song, but 9 times out of 10, this is the situation I just described. (I was asked about Blaster MAster and Twilight zone a lot.) NEW - I'm now starting to list links directly to songs in alphabetical order SONG TITLE. It's going to take time, of course, but I started the A here. Enjoy! A B C D E F G H I J L M N O P R T U V W X-Y-Z Do you like these graphic pages? Please e-mail me - let me know what you think! Also, email if you think there is a missed appointment or a song! Thank you!!! visitors from the CHR/Pop charts of 18/08. c) Radio and Records, Inc. Used with permission. Authorization. Authorization.
