Leheküljed kirjanimekirja kunstnikud (oma suurima hitt sulgudes), klikki kunstniku nimi, et näha oma tabamust kronoloogilises järjekorras. Iga laulu tippositsioon antakse koos selle nädalatega diagrammil, nädalad tippositsioonil ja selle 1. Diagrammiandmed põhinevad ajakirjal Raadio ja Records ja neid antakse. Värvihoodiga: Top 10 - Roheline kast. #1 - Lilla kast. Märkus: 1973 ja 1974 R + R diagrammi oli ainult TOP 20 diagrammi, kuigi see kontroversiaal – some weeks the chart would be in the top 22, top 23, top 21 --- variable. At the end it moved into the top 30 and finally top 40 chart for the first time 11/29/74. Therefore, if there are letters in the Charts column, this could mean weeks in the chart, which can mean weeks 20, top 24, top 30, etc., i.e. inconsistently sized non-top 40 charts. The top 40 chart of 11/29/74 lasted until 10/8/76. Chart 10/15/76 was in the top 30 chart, and remained so up until 1983, so the weeks charting a song hitting that time means a week on top of 30. From June 1983 to May 1995, the chart was again 40 songs, and in May 1995 there were 50 songs. Note: If the song is not related to the chart launch, you can assume that the obvious of these chart launches and that there were no re-entries or rebounding and positions. ie if the song peaked #39 on 2/8/87 and it was entered 2/1/87 and had 2 weeks on the map, then it was #40 on 2/1/87 so there is no chart run sheet required. The same situation 3 weeks chart, also means the song was #40 on 2/15/87 etc Apparently it depends on # total songs chart, 30, 40 or 50 (see above). If the DID song has a chart run that cannot be determined based on this information, I'll add a chart for it.\*\*UPDATE\*\* 8/14/06 - I will now continue to use mediabase weekly charts, although R+R has now been part of the billboard and now we're doing another chart. The dates of the charts are now week-end data collection Sunday. so the charts go to 6 / 14 (last R + R chr / pop chart using mediabase) - 6/6/06 - 8/13/06 - etc. 12/16/14 - I have finished all song data and Song run links, A to Z! If you see anything about songs I do not link or broken links, please e-mail me in the link below! (If you can't find a song that you think mapped out, especially in the 70's or early 80's, it may have hit the Billboard Hot 100, or have had its own radio station a lot, but probably DIDNT hit R+R's CHR CHart (which was only in the Top 30 chart stretch). You can contact me if you're 100% sure I missed the song, but nine times out of 10, that's a situation I just described. (! get asked about the MAster blaster and twilight zone a lot.) NEW - I'm starting now to list links directly to songs in alphabetical order of the song title. It's going to take a while, of course, but I started an A here. Enjoy! A B C D E F G H I J K L M N O P Q R S T U X-Y-Z Do you like these chart sheets? Please e-mail me + let me know what you think! Also email if you think there's a missed date or song! Thanks!!! visitors from 8/18/08 R&R CHR/Pop charts. c) Radio and Records, Inc. Used with permission. Right.
