Hello Everyone, the next character page I'm working on is the Stargate SG-1 RPG. This character tab is based on the Stargate SG-1 RPG Rules Alderac. I created the HTML based section of the Spycraft 2.0 character tab by Bill Kart. I shamelessly stole the .css from the same file. I committed to the following files: Readme.mdown sheet.json StargateSG-1.html StargateSG-1.css StargateSG-1.png StargateSG-1.png StargateSG-1Logo.png Character page features attributes, vitality and wounds, inspiration and education, saving launch, weapons and armor, skills, personal information, languages, Mission Gear, carrier capacity, class capabilities, feat capabilities, vehicles and vehicles with weapons, and contacts. Enjoy! /Mátyás Hello Everyone, So this character page is already dedicated, but it does not appear in the drop-down menu choices. Any idea about that? /Mátyás Only pages added to approved.yaml will appear in the search on github. Don't edit this, but raise a problem to find out why they left it out. GG, Thank you! I'll do it. /Mátyás Has there been any progress in this area? Is this the D20 version if you have Sg-1? Storyteller said: Has progress been made on this issue? Is this the D20 version if you have Sg-1? 1. I don't know, but I'm going to find it. 2. Yes, this is the Stargate SG-1 d20 version of Alderac Entertainment. /Mátyás Hello Everyone, the Stargate SG-1 character page should be live now. /Mátyás The official, form-filled, character datasheet for Stargate SG-1.
