## Merriam webster dictionary apk

I came across the Word of the Day a few years ago, and got it in my email every morning. I share it every day on social networks. But it stopped coming. Seriously, MW, what's going on with that? I checked my spam folder, I tried to churn out and then subscribe again, but nothing. It just wouldn't send. (I know... it doesn't really seem like a 5-star review, does it? Stay with me, it's better. 😊) But in the end, it occurred to me that I used the website a lot to search for words, whether in the dictionary or the thesaurus, and that I should just look for the app. Hey, I'm 62 years old and a little slow with technology, OK? I love the app, and I use it every day... usually several times a day. I'm looking for meanings of unknown words, of course. But I use the thesaurus a lot. When I write an email, or text, or post on social media, I often find myself looking for my brain for a word I know is perfect for context, but my brain may not seem to cling. (Old and slow, remember?) I go to the thesaurus and start putting in words that are similar, but not quite what I'm looking for. Most of the time, I find the word I want. Sometimes I don't, but I find an acceptable substitute. I always check the WOD, and share it on social media. And I'm absolutely liking the way they subtly (and sometimes not so subtly) cast a shadow over the current president and administration. It is a master class in the shade. 😊 Hi, thank you for your opinion. We're glad you're using the app! If you would like to start receiving our Word of the Day emails again, please email wodsupport@m-w.com. They would be happy to help you reactivate your subscription.
