S-290 class california 2020

Red Helmet Training @ 10601 Church Street #107, Rancho Cucamonga, CA Blue Helmet EMS/CPRT Training White Helmet Chief Officer Training Black Helmet Wildland Fire Training Yellow Helmet Firefighter Prep. Training Red Helmet Company Officer Training Orange Helmet Haz-Mat Training Green Helmet Disaster Prep. Training S-290 Intermediate Wildland Fire Behavior (Online Course) S-290 Course is available for students who plan to attend or participate in helmet training classes. The S-290 online course will meet the premise for commanding 1C of course, but not for the new Officer 2E company. The online course will also meet the CICC requirement for Engine Boss. This class meets nwcg and cicc requirements for engine boss and single resource unit leader, but does not qualify for Strike Team Leader. For TFL and STL, you must have an S-290 course in the classroom. S-290 Online Course If you want an S-290 course online, you will need to follow the instructions below. The program will ask you for a course administrator. Please insert my name (Jesse Quinaily) and my email (jquinaily@redhelmettraining.com) as needed. As you complete the unit quizzes it will send me an email with your score. If you need to re-accept the module, it will allow this after re-passing through the module. If you have any questions, please feel free to contact me. Sincerely, Captain Jesse Quinaily Red Helmet Training www.RedHelmetTraining.com (760)930-4572 Click here to begin class Red Helmet training @ 10601 Church Street #107, Rancho Cucamonga, CA Blue Helmet EMS / CPRT Training White Helmet Chief Officer Training Worm Helmet Wildland Fire Training Yellow Helmet Firefighter Prep. State Fire Training Certificate Course Details Classroom dress is casual, but respectful and uniforms are fine as well. Please bring your laptop with you to class every day. Student materials are on flash drives. Course Description This is a classroom-based skills course designed to prepare a future fire line manager to perform safe and effective fire management operations. This is the second course in the series that collectively serves to develop fire behavior prediction knowledge and skills. Differences in the fire environment are described as needed; the instructor will emphasize the local conditions of fire behavior. If you want to improve your experience with fire behavior, knowledge, skills and abilities to get you into trouble, then this class is a must. Very important. Please bring a laptop or tablet with a USB port to class with you every day. Student material is on flash drives that you receive on the first day of class. PRE-COURSEWORK: Once you register for this class you will have a link where you can download the pre-course. You can also download course materials to help you complete the pre-course. Your forward work will be completed before the first day of class. Click on the upload below for pre-coursework. Course Flyer Course Document #1 Course Document #2 Course Document #3 This class is by far the most important class you can take. Understanding fire behavior is critical for all firefighters. To take this class from an instructor who is FBAN 5 and who has expertise with fire behavior. You do not want to from a community college instructor who is not equally qualified. Prerequisites S-190 Certification California State Fire Training Certificate Course Details Dress dress is casual but respectful and uniforms are fine. Bring your laptop with you to class every day. Student materials will be on flash drives. Course Description This is a classroom-based skills course designed to prepare a future fire line manager to perform safe and effective fire management operations. This is the second course in the series that collectively serves to develop fire behavior prediction knowledge and skills. Differences in the fire environment are described as needed; the instructor will emphasize the local conditions of fire behavior. PRE-COURSEWORK: Once you sign up for this class, you will have a link where you can download pre-coursework. You can also download course materials to help you complete the pre-course. Your forward work will be completed before the first day of class. S-290 Intermediate Wildland Behavior Designed for personnel who wish to be qualified as a Single Source Boss or Fire Effects Monitor (FEMO). This class-based skill course was designed to prepare the future fire line manager for safe and efficient fire management operations. This is the second course in the series that collectively serves to develop fire behavior prediction knowledge and skills. Differences in the fire environment are described as needed. Instructor: Kevin Martin, Elite Command Training Date: December 15-18, 2020 Time: 9:30 a.m. to 5:00 p.m. Price: \$400.00 Designed for individuals who want to be qualified as every single source bosses or fire effects monitor on fires, fires use fires, and prescribed fires. Prerequisites S-190 Certification NWCg Certificate Completion Course Details This is a 2 day class (15 hours). Intermediate Wildland Fire Behavior Course Description, S-290 is the second course in a five-course sequence that develops skills and knowledge of Wildland fire behavior. In the Wildland Fire Qualifications System Guide, PMS 310-1, it builds on the foundations in the S-190, introduction to Wildland Fire Behavior, but with more detailed information about the characteristics and interactions of the wild fire environment (fuel, weather and topography) that affect wild fire behavior for safety purposes. Special instructions If you cancel a class 14 days before the first day of class, you will receive the full registration amount. The S-290 is available through two delivery methods (online and ILT), one of which is sufficient to complete the student. It is a classroom-based skills course designed to carry out safe and effective fire management activities. This is the second course in the series that collectively serves to develop fire behavior prediction knowledge and skills. Differences in the fire environment are described as needed; the instructor should emphasize the local conditions. Targets identify and describe fuel properties, weather, and topography that affect behavior in wild land. Describe fuel interaction, weather and topography of wildfire behavior, fire line tactics, and safety. Describe the causes of extreme fire behaviour conditions (long-range observation, coronation and fire swirls) that develop as a result of weather, fuel and/or topography. Interpret, communicate, apply and document wildland fire behavior and weather information. Target Group Personnel that wishes to be qualified as any resource output or fire effects monitor (FEMO). Prerequisite qualifications and training Successful completion of S-190, Introduction to Wildland Fire Behavior. Satisfactory completion of the evaluation before selection and pre-course work. Nationally advertised courses can now be found at the NWCg Wildland Fire Learning Portal (WFLP). Sign in as a guest and search for this tutorial's range of responses to see more public content. To search for a specific course, use the Find Learning menu item at the top of the page and select Upcoming Courses. To view geographic area training plans, select specific geographic area information by using the drop-down menu at the top of the page. For more information about local courses, contact your local training staff. Delivery S-290 is available either as an online training or instructor-led training in the classroom. Course components and hours to complete Component Hours: Instructor-Led Hours: Self-Directed Instructor-led training 32N/APre-course work 3N/APre-selection assessment 2N/A Online Training N/A 15 Remed total hours 37 15 Pring Level Local Minimum Instructor Qualification instructor must be qualified strike team leader (STCR, STEQ, STEN), Task Force Leader (TFLD) or Prescribed Fire Burn Boss, Type 2 (RXB2). It is recommended that advanced fire behavior calculations (S-490) be successfully completed. Unit instructors must be qualified as every single source boss. A meteorologist is strongly advised to instruct weather sections of this class. For more information, see NWCg Course Delivery Standards, PMS 901-1, Instructor Standards. Final exam Contact the course coordinator or email blm_fa_nwcg_training@blm.gov to access the final exam and the answer key. Print Training Training Overview page
