## Amc 8 problems 2016

Copyright © 2020 Art of Problem Solving The 2016 AMC 8 was held on November 15th-22nd, 2016. According to the AMC guidelines, students, teachers and coaches are not allowed to discuss the competition issues and solutions until after the end of the competition window, so we are only now able to post 2016 AMC 8 Problems and Answers. You can click on the following to download them: Detailed solutions of the most difficult issues on 2016 AMC 8 can be found at: This year's AMC 8 has a similar level of difficulty as last year's AMC 8; However, it was harder than AMC 8 of the years before 2015. We predict that this year's AMC 8 honor roll and Distinguished Honor Roll cut-off score will be: 18 and 22 respectively. Read more at: AMC 8 Historical results from 2011 to 2015 Because the AMC 8 issues are getting harder, we need to practice not only past AMC 8 issues, but also simple or medium difficulty with difficulty from previous AMC 10 to do well on AMC 8. For more information, please visit: Click HERE find out more about Math Contests! This entry was posted in Maths Competitions. Bookmark the permalink. The main recommendations for preparation and study for AMC 8 are past AMC 8 competitions and Art of Problem Solving Series Books. I recommend that they be studied in the following order: Prealgebra by Rusczyk, Patrick and Boppana, AoPS, 2012. Introduction to Counting and Probability (2nd edition) by Patrick, AoPS, 2007. Introduction to number theory (2nd edition) of Crawford, AoPS, 2008. Additional recommended problem and review books for AMC 8: Competition Mathematics for Middle Schools by J. Batterson, CreateSpace, 2009. Challenge Math for Elementary and Middle School Student (2nd edition) by Edward Zaccaro, Hickory Grove Press, 2005. Creative problem solving in school mathematics (2nd edition) by George Lenchner, Math Olympiads Press, 2005. Mathcounts Handbooks (usually over 300 new problems per year) It's better to give than to receive - especially advice - Twain And remember - be respectful of your superiors, if you have any. good luck! - DP
