Majora's mask 3ds guide pdf

The original game came out in 2000 and it's still there until the test of time. Hello and thank you again for choosing to read one of our guides. This guide covers Legend of Zelda: Majora's Mask 3D, a remake of the original Nintendo 64 video game. There are some changes both visually and mechanically in the game, and there are some additions and moving items, so be sure to keep up and not miss anything. The main walkthrough cover becomes 100%, but if you want to digress a bit or pick up halfway through you can consult sections then detail all collectibles. These guides, like all the others we produce, aim to act as encyclopedia knowledge of this game. I hope you enjoy reading this guide and playing the game as much as we do. FlagView History Released platform October 26, 2000 Nintendo 64GamecubeWii February 13, 2015 3DS Developer Publisher Nintendo EAD Nintendo Grezzo Nintendo Official Sites Official Zelda siteShortly after saving the land of Hyrule from the evil Ganondorf, Link begins a tour in search of a lost, beloved friend. While traveling in the woods, he is ambushed by the Skull Kid, a mischievous imp donning a strange mask. After his prized property is stolen, Link gives a desperate chase, eventually emerging in an unknown parallel world. A quick glance at the sky reveals a menacing looking moon that appears to be on a collision course with the planet. The link has three days to stop the moon falling and figure out who - or what - is the reason. With the help of new friends, many masks, and new transformative powers, Link's strength will be brutally tested. Will the Hero of Time be able to save the world again or is his time finally over?
