General knowledge crossword

Crosswords of general knowledge is one of the most popular variants of the standard crossword. The puzzle plays and solves in exactly the same way as a conventional crossword puzzle, the only difference is that, unlike fast crossword puzzles, which tend to have shorter, definitions based on clues and answers, common knowledge puzzles - as the title suggests - test their knowledge, and so clues can be a little longer. For example, while a quick crossword puzzle can test your knowledge of synonyms, the overall puzzle of knowledge is likely to test knowledge of subjects such as history, entertainment, art and literature, sports, science and more. So you can expect clues based around Shakespeare's words, particles in physics, dates of famous historical battles and more besides common crossword puzzles of knowledge. As a result, not only are common knowledge crosswords very satisfying to solve, they are also a fantastic and fun way to explore new information like from time to time if you don't have great general knowledge you'll need to search for or explore an answer or two in order to complete some puzzles. It's worth noting that all the common knowledge crosswords here are compiled in the UK, so for our friends around the world you can find some links a bit British-centrifugal, such as the names of TV personalities or a sports star, although many of the people we mention will be known around the world; equally geographical clues are not unduly incomprehensible in most cases, but tend to refer to known cities and rivers, etc. Thematic puzzles where they occur tend to be common puzzles of knowledge, but based on a particular theme, whether it's broad enough, such as sport in general, or much more focused, for example, on cricket. Play a common knowledge of crossword puzzles Better for crossword puzzles, code swords, sudok & other puzzles, games and trivia Consult Chambers 21st Century Dictionary, The Chambers Thesaurus (1996) or Chamber Biographical Dictionary (1997 edition with amendments). Enter your search and choose a name from the drop-down menu. A wildcard tip is a special character that you can use to replace one or a character issue with a single word. There are two types of wildcard characters. First, it is a question mark, which corresponds to one character. The second is an asterisk *that matches zero or more characters. You can mix two types of wildcard characters in a single search. See more search tips Contact Arkadium, the provider of these gamesPop the popular Saturday crossword Jumbo General Knowledge. Test your knowledge of geography, music, movies, history, science, sports and many other things. When you decide a crossword puzzle, three answers have a connection. Can you guess what it is (connection revealed in the next puzzle). Crosswords are all 23x23. And and disappointing to do. Tooltips often very incomprehensible, my wife and I read well and will be well tested, but we often couldn't make up to a quarter of the clues, and seeing the answers never expected to know them or remember them again. You can't do this crossword without Google Search. There's also an undue imbalance in general knowledge - for example, I've selected ten puzzles from a book, and an average of 13 of the 60 clues are popular culture - film, TV and popular music. For one puzzle as many as 18, more than a quarter. More or less liked it, but won't buy another of the series.
