Emile halo reach figure

Respect his peers; detail-oriented; Adamantine. Theres not a whole lot more to mention; he is an effective member of the unit but in the field and maintains strict discipline off the field. It seems that he tends to have more difficulty interacting with non-Spartans than other noble, however. Born in Luxor, Eridanus II in 2523 and conscripted as part of alpha company, Emile has a quiet way of letting his actions talk about him. He has noted that the most trouble interacts with non-Spartans than any other Noble Team. Moreover, his excessive use of force makes it difficult for him to be evicted against the insurre part, as it provoked a reaction in the civil media. He also has an impressive collection of Covenant Smuggling. While in direct violation of Subsection Seven of Cole's protocol, his bosses ignore this because they are part of the army. As seen on the right, Emile wields an as yet unidentified UNSC shotgun. Emile also has several grenade launcher shells on the torso of his armor, whether it is decorating or practical use, is unclear.
