Gas mask filter unturned

Unturn>Suggestions> Topic DetailsAddding Gas Masks! The map is for promoting the use of gas masks and biohazard hoods, but another make-up item fits easily, especially in games like this. I think crafting recipes are done along the lines of: 1 * tape + 1 * filters + 1 * snorkels = 1 * make-up gas masks, but make-up masks work the same way as regular gas masks, but durability works in the same way as regular gas masks, but cannot be replenished with additional filters (when the mask reaches 0%, it is not useful to filter by other filters.) Recipes, like any make-up item, must be crafted by Crafting 1. Idea. Note: It is only used to report spam, ads, and problem posts (harassing, fighting, or rude posts). Unturn > Question > How to apply a filter to a topic detail mask? I keep finding filters, but maybe someone knows because I don't know how to put them and there's nothing online. Note: It is only used to report spam, ads, and problem posts (harassing, fighting, or rude posts). in: Filter radiation when attached to item, gear, equipment, and 2 comment shared filter file filter ID 1271 rarity rare type radiation filter slot 1 slot (1x1) description gas mask. The filter is a rare radiation filter of Unturn 3. Used in combination with gas masks or biohazard hoods. Get: Depending on the map, filters can be found at Scorpion 7 facilities, fire locations, or police locations. Cyprus Survival: Filters can be found in police locations and fire stations. Germany: Filters can be found in the location of the fire. Greece: Filters can be found in the location of the fire. Hawaii: Filters can be found at Arica Base and Ayrani, in addition to standard locations. Russia: Filters can be found at fire locations, including firewatch bases and firewatch towers. Washington: Filters can be found at the Scorpion 7 facility. Yukon: Filters can be found at Scorpion-7 locations. France: Filters can be found in fire stations. Trivia: The context type was incorrectly listed as a robot turret rather than a radiation filter. This is because the compass is using a new context type, but the localization file has not been updated to accommodate it.
