Creative lush islands, each island has its own unique theme and monster environmentA good hearts decorations and structures affect each MonsterCreate unique combination of scenery and sound effects3D, with many individual songsTask based on the tutorial, suitable for beginners Achievable monsters, islands and music content weeklyScale game with RPG and tower collecting coins mechanicsA here is a famous transplanted classical music development game, My Singing Monsters is a green world is full of interesting monsters. There are various monsters in the game that can be raised, collected and upgraded. The interesting thing is that these monsters have their own unique singing voices, and players can collect them to create unique sounds in their world. There are more than 30 species of monsters to manage, and each island has its own concert hall. This kind of game is healing and it's free to download, don't miss it! My singing monsters strategy game that opens a miniature garden and installs different monsters, but this work is different. Monsters are in this love music job and it's going to sing when the egg hatches. The more you develop a miniature garden, the more BGM will become famous! After the game starts, when the first screen appears, here rock-like monsters take a rhythm like a drum, and white monsters simply sing Bourne Bone. You can create unknown monsters by getting eggs by mixing and buying and hatching them. As the number of monsters increases, background music becomes thicker and grows from a lonely solo in no small chorus of chorus. There is also a mini-game where you can remember the order in which monsters were sung, making it ideal for waiting for the hatching to end. You will also receive rewards from all mini-games. And that's not the only thing you can do. You can also enjoy a miniature garden game of peculiar pleasure by removing obstructive trees and rocks, making bait, and raising it to monsters to level and make a lot of money. First of all, it's fun that BGM becomes busier when the number of monsters increases and players wonder what the finished form will be so they play forever. You will be glad that you can feel your hard work not only singing when singing monsters and buildings that will improve the happiness of your monster and even make all kinds of candy to feed them. Like many free games on your phone, there's an option to buy glorious Dawn of Fire. Experience catchy melodies, great graphics, and intuitive gameplay in this thrilling prequel to the hit mobile sensation My Singing Monsters.As you unlock every loving character, their unique musical styling will be added to the song to build on the symphony, creating brighter sounds. Some are vocal virtuosos, while others play lush instruments. Until you hatch it, it's a surprise! Want to grow a collection of singing monsters? It's simple – breed monsters with different elements together to create fresh ones! Level them by rewarding them with things they like and bringing up their own own kind of orchestra. Build impressive structures, gather resources and master a complex new crafting system! Learn recipes for anything your monsters can ask you to and put weird decorations to add that personal touch! Expand your horizons beyond the continent and explore the diverse and amazing Outer Islands. Everyone has their own infectious melody, as performed by your singing monster maestros! Who knows how many there are to discover? Know that the happier your monsters are, the faster they will produce coins. To make them comfortable to look at their affinity, buy and place the monsters and objects they like next to them. The higher the level of your monsters, the more money they will earn! To align them, you just need to feed them. The more they are leveled, the more greedy they are. You can have five bakeries on each of your islands. Stock up on food as soon as possible and keep it safe! Don't forget to install mine on each of your islands because it brings in one diamond for 24 hours. Go regularly to buy diamonds and sign in to free diamonds, because to watch the video for 30 seconds, you'll pocket the ring. It's a game that also requires patience because we don't have the clock we want for the first time. During breeding, there may be one of two monsters chosen instead of a new wanted man. All you need is patience, patience, and perseverance. My singing monster is a game in which you have to breed monsters that make music. Your goal is to help monsters release their voices – an unusual game for your mobile phone. Therefore, the game asks the player to take care of those monsters who like to sing and play on a small island. The game starts like any other farmhouse style game, with the birth of minor creatures to care for. Only, instead of a farm, they are on an island in the sky. In the beginning, you buy monsters and place them in a script. Then an interesting thing happens. Monsters keep up with background music and enlarge it with their sounds. For monsters to grow and improve their artistic skills, you have to feed and raise them in the best way possible. You will find yourself on an island uninhabited, calm and covered in vegetation. It is there that the first monster appears, which we will place on this island. The baby monster will make music using an instrument, mouth, or part of his body. There are more than a hundred kinds of monsters that have their own musical phrases. Some are percussion, other stringed instruments, or even singers, and there are also DJs! You will understand, especially Let's add different monsters on the island, the more difficult the song will be. It's up to you to compose your song with creatures you like! Monsters get by buying them on a coin case display, or by playing between multiple monsters. To create new species, all you have to do is try many combinations of monsters! Once placed on the island, monsters collect coins over time and you can manage them to buy unknown monsters and buildings that will improve the happiness of your monster and even make all kinds of candy to feed them. Like many free games on your phone, there's an option to buy coins to get speed, but you find that you don't need to in my singing monsters. You just have to be patient, since each action takes real time to be carried out (creating cakes, waiting for an egg to hatch after breeding between two monsters, etc.) you can create an inclusive environment for your monsters: bakeries, trees, objects that improve their performance. By creating all these spaces for our creatures, you will get levels and this will allow you to unlock new islands that will contain exclusive monsters, and a new song! So every monster has a musical phrase that depends on the island on which they put it before! They can also level up, and the higher their level, the more coins you will collect. My Singing Monsters provides a relaxed, musical gaming experience. The game contains a hundred different species and you will have to raise, feed and reproduce them to hopefully collect them all. And thus combine monsters to compose your song as it sings to you! Each monster has its own personality and it will sing differently depending on the island it lands on. Game art is fresh. Every monster is charismatic. Some even change their appearance during certain events, like on Halloween night. You can try to hear a song compiled by a player with plant island creatures to have a preview of what it might be! If you want to use a single word to describe the fresh game My Singing Monsters MOD APK developer Big Blue Bubble, the timing is weird and the spirit should be the most appropriate. This is a game that collects, updates and builds its music world through various monsters. The game's protagonist is a group of monsters singing in a distorted voice. All monsters can sing, have unusual sounds, and use different instruments to accompany them. Depending on the collected monsters, the created melody will be different. Download My Singing Monsters here! This is an entertaining casual puzzle game. Players need to collect their unique sounds in the game. Even if you don't know the music, you can combine them to create a great beat. If you have questions, leave them in the comments section! Section!
