I need your experience. The LED on a SHARP 21HT-16CH GA-1E flashes 4. The phenomenon: Clip. after the noise comes in, then turns blue on the screen for a moment and turns off. You can then restart it only after you pull it out of the network. Poor condition replaced, feeds well. SM does not mention 4 flashing, only 2, 3 and 6. Do you have any ideas? Thanks: Karez. Sharp LC 37HV4E power supply problemCorn! I need an I.I. for this TV. Where do you get it? Possible replacement? Type: MC33262 profile: . Thanks in advance for your help! ThomasSharp 28JS-74E GA-200 chassis turns on and off I would like to ask for help to fix the following error: After having it on, the TV turns on and off every two seconds. When the time is up, even sound and video are good and the functions work. This will continue until I press the volume button. After that, it works perfectly until I turn it off. Everything starts all over again when you reconnect. Type: Sharp 28JS-74E. Does anyone have any ideas? Thanks: Józsika.
