Resetear nokia 520

Nokia Lumia 520 In this tutorial we will teach you how to perform a factory reset or hard reset nokia lumia 520, the process is quite simple and fast, although you have to consider a few things before you start doing it. Nokia Lumia 520, factory data reset Although it is a fairly safe and simple process, since Planetared we will not be liable for any damage suffered by the terminal, the whole process will take place under the responsibility of the owner and we recommend that if you have any questions consult a specialist. Before you do this, we recommend backing up any data you don't want to lose, photos, videos, music, contacts, because hard reset leaves the terminal as if you just ejected it from the box. Now, if you decide to go further follow these instructions. Nokia Lumia 520 can be reset in two ways, the first of which is good, if we can not turn on the terminal for some reason, in this case we will use the physical buttons on the phone, do a hard reset on the Nokia Lumia 520, follow these steps: Fully charge the terminal battery. Press and hold the volume button – and connect the charger or USB cable to your computer, and after about 8 seconds, an exclamation point appears on the screen of your Nokia Lumia 520. If you do not touch any buttons, the terminal will start normally. To start a hard reset, press the following keys in this exact order. 1.Volume + key. 2. Volume button -. 3. Behind/Off button. 4. Volume -. Now the terminal will begin the process and once you finish it your cell phone will be like fresh out of the box. The second of the ways in which we can recover factory data Nokia Lumia 520 can be used at any time we can turn on the terminal and we need to follow these steps: On the home screen we slide left Press settings. Click Info. , and then tap Reset phone. This way we will have our cell phone again as if it were new. If you forgot your screen lock key, if you want to erase your personal information, or if you're having a problem with apps, you can reset or Hard Reset. Warning! Resetting your phone to factory settings erases all content from your phone, including apps and games (along with app data and game progress), text messages, call history, music, photos, and more. Resetting your Windows Phone will keep it as it was the first time you turned it on. All of your personal content will be deleted and your phone will be reset to factory settings. Step 1 How to Make a Hard Reset /Factory Reset Nokia 520 1. Turn off phone 2. Press and hold the buttons to turn down the volume and power 3. When you notice vibrations, release only the power button 4. An exclamation point (!) appears on the screen. 5. Press the buttons in this order: Volume up > volume > on > volume Phone restarts Did you do it successfully? Conclusion This guide just shows you how to remove content from your phone. Choose your size and have the following code insert this guide as a small widget on your site/forum. If your Nokia Lumia 520 smartphone runs very slowly, hangs up, you have full memory and you want to erase everything, or you want to sell it or give it away and you want no one to have access to your files and passwords, you can factory reset it so that it is back as of the first day. Keep in mind that resetting or returning to factory status on your mobile device erases all of its contents, so you'll need to back up your data as you want if you don't want to lose everything. There are two ways to restore the Nokia Lumia 520, from the mobile settings itself or by performing a hard reset. Estimated time: 5 minutes. To restore your Nokia Lumia 520 to the factory using your phone settings, you should do the following: 1 - Step one: Swipe the Home screen of your Nokia Lumia 520 to the left. 2 - Step two: Go to Settings. Step 3: Find and access Information. Step 4: Press Reset phone. 5 - Step five: When prompted to confirm if you want to restore your phone, click Yes. 6 - Step six: To start the process, press Yes again. Your Nokia Lumia 520 will restart and take a few minutes to restore your device to factory condition and optimize apps preinstalled on Microsoft Windows Phone 8 expandable to 8.1. Restore nokia lumia 520 using hard reset To do a hard reset to return to factory state Nokia Lumia 520, you need to follow these simple steps: 1- Turn off your Nokia Lumia 520. 2 - Press the power button and while you vibrate, press and hold the volume button until an exclamation point appears on the screen. 3- When the exclamation point appears on the screen, press the volume up button, turn down the volume, power button, and turn down the volume. 4 - Your Nokia Lumia 520 will restart and it will take a few minutes to restore your device to factory and optimize preinstalled apps on your Microsoft Windows Phone. User reviews see IMEI on Nokia Lumia 520 7.50 out of 10 (8 votes) in this tutorial we explain Restore or restore your Nokia 520 Lumia and keep it fully restored to factory settings. the phone will remain as the first day that is purchased, without any information or programs installed, if you forgot the security code or lock pattern of the terminal, if you want to sell or give your device to another person, or if your mobile phone is very slow and is very loaded with information, are usually the most common reasons why you hard reset attention: with this process you lose absolutely all information, program, notes, photos, videos; so we recommend that if necessary, you will make a previous backup; information on the microSD memory card is the only thing that would not erase the instructions for lumia 1. the phone must be turned off 2. press the power button and press and hold the volume button until an exclamation point appears on screen 3. With an exclamation point on the screen press volume up, volume down, power button and volume down 4. several gears will appear on the screen for a few minutes, now it's just time to wait ... 5. Ready! This is how easy it was to recover your device video tutorial instructions for Symbian 1. the phone must be on 2. *#7370 or *#7780 3rd terminal will ask if you are sure to press yes, and if it asks you security code to dial 12345, if you changed the security code, you need to dial the code you selected 4. Ready! just as easy was to restore your device in this tutorial we explain how to restore or restore the Nokia 520 Lumia and let it fully restored to factory settings, the phone will remain as the first day that is purchased, without any information or programs installed, if you forgot the security code or lock pattern of the terminal, if you want to sell or give your device to another person, or if your mobile phone is very slow and is very loaded with information, are usually the most common reasons why you hard reset attention: with this process you lose absolutely all information, program, notes, photos, videos; so we recommend that if necessary, you will make a previous backup; information on the microSD memory card is the only thing that would not erase the instructions for lumia 1. the phone must be turned off 2. press the power button and press and hold the volume button until an exclamation point appears on screen 3. With an exclamation point on the screen press volume up, volume down, power button and volume down 4. appears on the screen a few gears for a few minutes, now just click on 5. Ready! This is how easy it was to recover your device video tutorial instructions for Symbian 1. the phone must be on 2. *#7370 or *#7780 3rd terminal will ask if you are sure to press yes, and if it asks you security code to dial 12345, if you changed the security code, you need to dial the code you selected 4.
