If you manage to make a makeshift lamp with a degraded lamp then the flickering would be more constant... What do you think? Keep on the following: It can only be used to report spam, advertising and problematic (harassment, fights or indecent) posts. In: Object, Weapon, Melee Weapon, Common Rarity Comments Share Lamp File Lamp ID 276 Rarity Common Type Melee Weapon Slots 2 Slots (1x2) Equip Secondary Range 1.75 Meters • 1.91382 Meters Durability 10% Degradate Player Chances Damage Damage to 21 foot arm spine skull zombie damage 21 foot arm spine animal damage 21 legs of the spine skull various damage negation barricade structure 2 2 Vehicles Resource object 15 25 15 Description Portable flashlight for night exploration. The flashlight is a common melee weapon in the unturned 3. Overview: When equipped, the lamp can be turned on and off by pressing B (default). When turned on, the lamp emits a wide beam of light centered on the camera. It can swing like a melee weapon, although it has low damage (but it can still stun zombies). The lamp is likely to be the first portable light source the player will encounter. Purchase: Located most civilian sites, and is often a civilian Analysis: Benefits: Emits light in a large radius, with a long reach. It can be turned on and off at will. It can swing like a last weapon. It allows you to explore at night and underground. Disadvantages: The light beam can give away the position of the player to enemies and spooky game animals. As a melee weapon, it has short reach and minimal damage. Useless in daytime or brightly lit locations. You can't be hotkeyed, technically being a weapon. It occupies inventory space when not equipped, unlike Headlamp. History: A flashlight has been added to the game. Added damage to the facilities, set on the 15th floor. Trivial when inspecting, the player will move the lamp upwards and spin it, but the beam it emits will remain unchanged. Weaponry (Unturned 3) List ID • Weaponry Torch ID ? Type Melee Description Mali, an old battery-powered hand break. The torch is a melee weapon in Unturned found at various locations. Procurement: The torch can usually be found in civilian locations such as Charlottetown, Kensington Campground, Montague and Taylor Beach. It can also be found at Charlottetown Fire Station, Burywood Fire Station and a stationary fire truck on confederate Bridge. Designs: Material output torch construction helmet miner helmet analysis: Benefits: Torch is common. It's got fast swinging speed. It can emit light when it turns on, making it useful for night time. Disadvantages: The torch is very weak, which we inflict little damage on the entities. It has a short reach. If you're fighting zombies at night, you'll need to switch to more powerful weapons, allowing you not to use the light to fight unless that's all you've got. Trivial: Although batteries exist in the game, and the description describes it as a battery-powered handheld assembly, it will never run out of battery power.
