Shadowbringers UPDATE! How to level up fishing quickly!? Confused with Fishing Levequests? Looking for Fish & Fishing Spots? Power your Fisher! Again, back into the fishing holes! Welcome to the Shadowbringers floor, for fishing L70 to 80! Without more ado, let's go! FSH leveling navigation: [01-15] | [15-35] | [35-50] | [50-55] | [55-60] | [60-70] | [70-80] Fishing L70 to 80 - RemindT I'll just post some useful information here so you can easily refer if you need it. Fishing L70 to 71 - DEADZONE The first level of any expansion is usually a dead zone, and Shadowbringers are no exception. This is due to many things, but MAINLY due to low or RANDOM gear levels. Scrip cake and above – destroy deadzoneThe easiest way to get out of deadzone is gearing up, and the cheapest/most cost effective setting for that right now is Landking's Set, obtained through scrip. Buy The Landking Scrip Piece: All the pieces on the left as well. Weapons and chests are particularly good. DO NOT BUY LANDING ACCESSORIES. DON'T BUY FANCY L70 EQUIPMENT, OR UNDERPOWERED PEOPLE. AVOID BUYING THE FOLLOWING SETS: Lower Scrip Floors: Tackeking, Augmented Tackleking.Crafted Rods: Zelvova, Ala Mhigan, Black Willow.Left-side: Serge, Ala Mhigan, Yamashi, Gazelleskin, Twinsilk. (including forething and ornate) Accessories: Gazelleskin & SlothskinT I still recommend reading the rest of the deadzone segment as a refresher for the leveling process in either way. Scrip gear from now on, in this tutorial, means landking set. Fortunately, Custom Delivery and Mission System New aspects give us tons of scrip to buy this cake! Out of DeadzoneHere are all practical ways for EXP to beat deadzone. But, first of all you have to unlock your new class mission... UNLOCK CRYSTARIUM DELIVERYIEShadowbringers for our Crystarium Deliveries, which are oddly named because it's nothing like other distribution systems. It is basically a new kind of class task. Other ways to achieve EXP & BEating the Deadzone! Keep in mind that many of these apply even PAST deadzone. First of all, SCRIP GEAR IS THE EASIEST WAY - It's pretty worthwhile, especially if you're leveling all 3 Layers of DoL. There are pieces you don't really want though... Gear Improvements (SCRIP GEAR!) I know I'm just talking about it, but to hammer home the point... Scrip gear is the most realistic way to beat deadzone at level 70 without breaking the bank. Buy weapons, and all the pieces on the left as well. Avoid accessories. If you don't have access to scrips, don't worry – just proceed with the tips below, while saving scrips up. Definitely the easiest method to get out of deadzone FAST. You can send 12 Custom Deliveries per week to NPC's: Mnaago in Rihaglr's ReachAkkiragh and Zhloe Alpaioh in IdylshireKurenai in Ruby Ruby submit to great EXP and other rewards. The obvious downside of this method is the weekly limit. You should mainly use them to get out of deadzones, or difficult floors. REMEMBER THAT SUBMISSIONS ARE SHARED AMONG ALL CLASSES! Means 12 maximum in total for your character. THE SURVIVAL MANUAL IS YOUR FRIEND. Seriously, fishing is the most RNG to level up. This tip, while useful in the dead zone, applies to the rest of your leveling journey. Getting megachunks of EXP per actor will at least make you a little less salty that you can't catch the damn levequest fish. If you're leveling non-fishermen too, gettings Scrips to buy manuals is worth it. It significantly speeds up the FSH leveling process. Almost nothing can be done if your device is bad. You can try it, but unless you're packing scrip or above I won't bother. Even then, I felt there were better things to do. Save it until you are 71+. Raising your own fish for levequests will be hard to say at least, if you're undergeared. Save it for 71+. Again, only if you have scrip or above. You can choose to buy cheap fish from MB (NQ if you are desperate and spill over the leveel). This is not a bad way to level up, while spending otherwise excessive levequests. Grinding - Stormblood zones & CrystariumStraight up fishing in the older areas decent yields EXP. You can easily escape the dead zone if you grind in any Stormblood area that you can manage, while it is best to use the EXP Manual or have EXP at rest. This is the type involved above, Custom Delivery, as you will get other fish while trying to get collecting. If you're lucky enough to find them in the marketboard for an affordable price, great. Otherwise, I personally wouldn't waste time going for them out in nature. A great source of EXP, but can be quite unso realistic for fishermen at L70 to 71 – pool of fish changes needed at 72/73 so this is an iffy EXP source until then. Personally, this can be a bit tedious to do as you level up. Marketboard can be your friend if you can find cheapo ones. The easiest way to punch through is to get fish aspect eigheyees eel if you have cake, or blow your custom delivery on it! Reminder: Patience II RotationThis rotation greatly increases your chances to land various collectables, facet fish and some levequest fish. I'll mention it in this tutorial is The Patience Spin. Wait until the GP is full and cordial availableUse Patience II (Patience me if you are feeling lucky)Use intimacy soon after. Reel in the use of Hookset.Fishing L71 suitable to 72A very much occurs when reaching L71, the most important of which is surface Cake updates are possible, and how to level up once you are past the dead zone. A great tool going forward, Surface Slap prevents you from fishing you've just caught FOR THE NEXT PULL. It's just a drag, unlike trade.While veterans are not godlike as trade veterans, it helps us a little small, given that fishing is really an RNG fiesta. I'll list the best slaps and trades in the tables going forward. FSH L71 Gear Update! If you have scrip cake, you can also use it! But not every scrip device is fine. Here's a summary of what your gear SHOULD look like going forward. Crafted means HQ w/Materia V/VI (you can safely unslot them)TECHNICALLY SPEAKING, the cake crafted slightly edges out the scrip cake – but wether it's worth it whether or not it's up to you. Scrip cakes are simply cheaper in the sense that scrip is quite easily achieved. If you're rich, or don't have a scrip, here's how the L71 device compares: !!! There is no reason not to get landking weapons (scrip) and !!! ALL NON-UNSPED HQ L71 CRAFTED GEAR is, roughly, 2-5% stronger than their scrip partner. It's really small and insignificant, but an option if you don't have scrip. But, as the table in the previous tab shows, HQ L71 Smlodonskin Accessories is a big investment since you can meld Awareness in it. I want to save money on optional upgrades in the future. However, the bait/position caused unnecessary lines pulling noise that I didn't like. Purple Ghost (three) feels a bit sucky party. The chances of other spearfish targets are simply too high even after the veteran trade. EXP is also rubbish, compared to the effort required. Farming Albino Caiman collectables feel FAR MORE effective. Xanthic Bass is FAR's best option for dykes in terms of alertness If you can fish them up in Sullen at L71 because it's listed as an L72 hole (I'm pretty sure you can...). Try it, since fishing up Xanthic Bass at hole L71, The Source, has been COMPLETE GARBAGE. They don't seem to be uncommon, and at L73 you can catch significantly more if you upgrade your bait to Marble Nymph.What do you do to be in this floor? After you arrange your equipment, farm/send Eighteyes if you're not yet in Lakeland, Rift of Sighs (32.15) with Fruit Worm. Put your collecting on, as you can get Albino Caiman collecting too. Too, Patience rotation is a bit strange here since the correct hook in the eel, and the strong hook in Caimans.Honestly the process on is a pretty good way to level up to 72. Albino Caiman is pretty easy to catch, and trying to get as many HQ Eighteye Eels. The levequests in this floor feel bad... But if you insist on using... I'll advise against this triple floor. The levequest I like is Xanthic Bass. Check the notes in the box. It loses to its partners due to both other levelfish having other value moves attached to them. I won't bother with this. Hell, Geayi is directly superior because it is a spearfishing leveve too. Geayi is great for spearfishing enthusiasts. It is not so rare, and the rotation described below also gives you a chance at a later Little Bismarck collecting. Blood Cloud is a straight catch, and using The Patience spin gives you a great chance to snag the Seadragon Weedy collecting in the same hole! Geayi and Blood Cloud are both great choices due to the added value in their sentence holes. Your choice! You have two choices in this floor. If you want normal fishing, Blood Clouds & Seadragons. If you are a fan of spearfishing, Geayi & Bismarck Rotation is for you. Both feel fine, depending on the method you like. Once you're L73, STOP WHAT YOU'RE DOING, and fish up the new Facet mission fish – Creamy Oyster. It is found in Kholusa, Western Kholusian Coast (14 32) using bait Moyebi Shrimp. Patience rotation with accuracy will help you get the 6HQ ones you need very quickly. If fore some reason you are not 74 after sending those, do albino caiman collect with marble nymph bait – unless you are lucky with the Geayi & Bis/Bothrio rotation. Fishing L74 to 76FSH L74 Optional Gear CheckThe L74 Weapon is not much of an upgrade from landking's scrip bar. Other body pieces however, began to look great compared to their scrip partner – but still unsomed. If you want an easier time, and are leveling all the other DoL classes, be all the left wheel L74 can be worth it. If you're poor though, save it for L77 options If for some reason you still don't wear Landking weapons or, get the L74 now! Accessories? Wow... a lot of choices ... Well, you have 2 main choices here that feel great. There is no shortage of things to try! Either way at L75 you get a new aspect mission, which requires Brighmirrorr Clam, at Il Mheg (The Spoiled One - 28.15 ... in the same place as Cherry Herring). Use Fruit Worm and Snagging! They were easy to catch with or without patient rotation. After you collect your 6x clams and submit them, I'll imagine you'll be 76 years old. Otherwise, repeat any of the methods outlined above. Fishing L76 to 78 Finally, we get to do something OP. It's time to catch crabs. Wait... Honestly, this is only necessary if you like collecting. I wouldn't go into as much detail as I imagine an astronomical piece of people wouldn't care about this since L76 gives such an OP levequest. While these will of course speed up the process, this is only really worth it if you are leveling all the gatherers. Even then, Miner and Botanist DONT NEED THESE AT ALL. It will mostly only benefit your FSH. I guess if you're woefully failing and snagging the crab, then go for it... While fish itself is quite rare, there is a chance to snag a hatchetfish that has future collecting wings here... It still doesn't feel good though, as collectability can be affected if you're L76. Crab Paradise is meh. While there's nothing terrible about this, nothing special either, moves on... Nwo... for the dike of the gods ... GOURMAND CRAB IS GOD TIER, with a single veteran trade on Ronkan Plecto... GOURMAND CRAB is a 100% CATCH! Welp, the age of the crab has begun. GOURMET CRAB IS GODLIKE. It's very similar to STORMBLOOD OP commercial veteran only levequests. Thank god. No other levequest fishing activity so far approached. No other collectible activity can include beating this either. While I Healthy Suggests Helping Gourmet Crabs Go Extinct - If You're Hellbent on Collectables... At L77 you have a new Aspect mission to simply catch a single CALICO TROUT HQ, at Il Mheg – Longmirror Lake (13, 15) using Fruit Worm. It's a simple catch using Patience rotation that doesn't even take 5 minutes. The easiest 9,000,000 EXP in your life. As usual, end your journey to 78 with any of the above methods (\*cough \* Gourmet Crab \* cough \*). This is the last paragraph! Persevere! or should I see claws ... Start your final steps with the L78 aspect mission, Amber Monkfish. This is pretty easy. It was at Amh Araeng, The Hills of Amber (17, 15) Bait: Desert Dessert Frog. They start really rarely, then start pouring in. Use Patience rotation. For the vast majority of the population that just want to get this over and done with, continue your Gourmet Crab extinction project after you're done with the L78 Facet mission. If you, for some reason, insist on the new levequest fish, well, you are on your own... Read the details on the boxes above but I guess most people will be spearing deez Gourmet Crabs all the way to 80.Well, grats on Fisher's 80 hit – that's about it for floor shadowbringers! I don't know if I'll update any of the late game crawling tutorials yet, but let's take a look. It is also possible to finish the mission L80 Facet - 1x HQ Prospero Eel, which can be caught in Tempest, Norvrandt Slope (31, 15) using Moyebi Shrimp. The fishing hole is under the aetheryte area very close to the town. Also, congratulations and I hope I helped you reach level 80 on your fishing! Page 2Shadowbringers UPDATE!
