Monster hunter orage ch 1

So I'm not sure if anyone else is following this, but I certainly am. Being a fan of the game, when I discovered that there would be cartoons according to them, when I discovered that the cartoonist was Masashima of fairy tails, just wow. Anyway, RAW has been out since 9 days. But now the scan is out. I actually tried to do my own cleaning and type settings, but one person just couldn't beat the right team. Anyway, when it comes to comics it's self, it's awesome. It definitely feels like a fairy tail, as in character... But it has a nice twist. If you're looking for a good cartoon to start with, but don't want to do a lot of catching. Then Monster Hunter Orage is a great opportunity. Download Dragon Guard Monster Hunter Orage 1 summary here and more thoughts... Summary: I decided to keep these things simple and to the point. Basically, it's based on the world of Monster Hunter. When he is young, he is drawn to the hunter and becomes a self-helper. Everything is well cool, and it is cool and is taught quite a lot to do. About comrades and trust. But one day the owner dies, but before that, he assumed he was already ready to go on his own journey. Shiki awake ... His somewhere in town... Late teens (Naruto/Rupee/etc are all)? T'was all a dream. So let's go to the local guild hall, party and decide to go hunting! Too bad no one really takes him seriously. In particular, the girl Irie, who is cold and opposed to all forms of partnership. Iri goes on the hunt along the Kutku, Shiki tag but they end up finding a much stronger Latian... They beat the monster and found out that shiki's owner was really the father of this. He also reveals that he is a forbidden hunter and dreams of defeating Miogaruna, the forbidden gold yongin of light. In addition, the legacy of Iri's father she wants to continue. So they go on a trip together to Nakamal! In addition, Prince (the kind of illiterate hunter who always won the team here) becomes angry at the end. Thought: I loved it! For the first chapter it's really fun, maybe because it already understands the premise of comics because of the game but it feels like wow, the characters fleshed out pretty well. The main character, Ying, looks like a typical rupee/nats at first. All calm and silly. But he obviously has a very good deduction ability (like L), when he realizes Irie General Guild visitors. I can go more, but I can read comics, and see how wonderful it is for myself. I'm going to have to wait a full month for a follow-up sucks...
