I think this is the right place to post this, if I'm wrong please help. I am quite disappointed with the greatly limited range of hair in my game, especially for men of all ages, and I wondered if someone had a package or collection or something that added in several new hairstyles in a simple download. Man or woman is good, but man is especially wanted. I tried to look for it myself, but maybe I missed something. Can anyone help? #2 March 6, 2014 at 11:31 am I don't know if any collections of hair so the best option is probably to check out the code on MS3B and see what you like there: 20Hair my tumblr - sim photos and downloads my dreamwidth - ts2 downloads linkdecrypter - bypass adfly and other malicious pay per click download link hidere Back to top Privacy Overview Our website uses cookies so we can provide you with the best user experience possible. Just credit me and newsea! Hi guys, so low and see this is what I worked on for the last few days that I've been away from tumblr... I officially know how to convert and make CC! ^.^ Quick note, feel this is my first hair conversions, I totally forgot to morphing some hair for the fat group. It wasn't until I realized that the long hair was cut in the chest, so I transformed Wingssim's hair to fit the fat morph group, which is why it looks so far outside the body from the side view. My hairs are transformed to fit the fat's sims face. I'm sorry, I can try to go back in fixing the rest, but if you don't mind or want to fix it yourself feel free. Anyway, I like to give a special thank you to the amazing Sims 4 cc creators out there. I envy the hell out of you because you guys have skills that I haven't achieved yet. Especially @wingssims and @darkosims3 for their beautiful hair ^.^ Please check out the tumblr and TSR pages for more amazing creations here (Nightcrawler Sims) and here (Wingssims). I hope you like the hairs and please let us know if you notice any problems other than boobage clipping (-_-). Anyway...
