The Meguiars Super Degreaser is an extremely concentrated formula that is effective on wheels, tires, wheel turns, engine bays and other contaminated surfaces. With this concentrated formula, you can dilute 4:1 (water/product) for heavy cleaning or 10:1 (water/product) for mild cleaning. You're talking about safer money! - How-To Detail Your Wheels & Tires using Meguiar's Products by DJ Mayo Great Product, great cencing, very refreshing. No advances. Put this in the arsenal of cleaning tires, doorjamb, engines and it works like a charm. 1gallon makes 5gallonov! As a professional, it's the only uncloger I buy. It works exceptionally well at both dilutes, and is very economical. 10:1 for light cleaning and 4:1 for dirty services. Another winner from Meguiars! Love using this maniven & very easy to use. I use it on tires, rims, calipers. I also have a chrome bumper on my truck. I use it on all bugs as pre wash and it gets all bug guts off no problem (just let the product stay for a minute) Also use it when I clean my engine. There's no delay here. Strengths: A little goes a long way when it comes to the dilution ratio. The product is great for engine or door off. Jamb degreaser. This is Meguiars, so you know it's 2019 quality. Cons: Maybe, activate the gallon pump when you snoot and buy 2 or more. I used this diluted product 4:1. Quite a powerful stopper for cleaning the bay engine or great as a rubber and rim cleaner. When you spray it on dirty tires, you see a dirty elevator made of tires. A great product and will defiantly keep buying from you guys. Very versatile and excellent all-round cleaning! Relatively strong demater/cleaner when used in a dilution of 1:4. Effectively remove accumulating on tires, rims, wheeled spins and subways with simple agitation. A copy of the cake requires more thorough fuss/scrub, but the product still does the work, all without the use of additional products that could damage certain types of metals/rims. It has a tendency to dry out quite quickly, so it is recommended to use in smaller areas, followed by rapid washing; You can still spray and leave for a while to get wet, but be a warrior of drying time. The product has a strong odor, so keep in mind that when used in a restricted area or around people with chemical sensitivity. For reasons of higher base, gloves and eye protection should be worn to prevent fat saaponification in your skin. It's a very good thing, I use it on everything! I even clean leather with this, of course I break it down a lot. I'm going to the dry cleaners. DI keeps me doing this with email arrangements! Damn u DI! lol..... Even without email deals 9 out of 10 have the best prices and I cheapskate, I look all before things and 9 out of 10 times I come back to DI to get my supplies. Let's go to a cleaner selection for the heaviest stains and grease. It's a little far away. We didn't find another product to replace in our arsenal. A very diverse product that can be used on several surfaces as long as it is properly diluted. I highly recommend this degreasing. It's a great product for unclogging. Break down oils and stains with ease Super product. She cleans better than the other products I've used. Very effective when used at 1:4 dilution - must wear gloves - suggest a pump dispenser, as is for the garden for old engine compartments that need a recurrence of Super product treatment. She cleans better than the other products I've used. This is the clamp in my collection of cleaners/detailed products. I use it to clean motor compartments, tires, bicycle wells and many other car and house cleaning items. For our purpose, mix the correct ratio and load a few bottles with a spray so that they are ready to go. I like to use a sparkling sprinkler in wheel turns, so it keeps it longer and the fine spray can't find its way back to inhale. The products are very good I recommend them, great things. It works perfectly diluted to clean the clogging of doors and wheel wells. It's a great revenge! I was thinking about buying a CarPro Tar X tar and glue remover in order to remove some of the sap and paint stain that my son painted on the glass of my wife's van; But there was no need to buy it because I have this unsalting. He easily removed the juice from the surface of the van's paint when I let it set for a few seconds and scared it a little with a credit card, and he even got a stain off the side glass, too! I used it at full strength and it works wonders. I've been using P21S revenge, but this revenge is much stronger in removing insects at a fraction of the price! Very impressed with this all-purpose unsalperation. I probably wouldn't use it inside my vehicle because it looks pretty strong. It must absolutely have to have every detail. Very versatile and extremely effective. And the speedy delivery from DI was even better. Great stuff. I used some of the things I got at Walmart as a fat, but these things are amazing. I used it 10-1 in leather seats and it works wonders. Benefits: great value for money when you go through a lot of it. Besides, he cuts things well. Cons: don't stand down the wind from this, you'll cough up a little Super product. He's really cleaning up. I didn't like it smelling, but maybe it's just me. But I can be pretty excited. I wished I could upload pictures of my car mats before and after. Daily and night difference after cleaning. Mix it as a 4:1 spray on the carpets and rub with a brush and use the vacuum to be sprayed/dry. My eyes are watering, so it's gotta be good! Read the instructions and dilute it for proper use. She did a great job on my motor bay and grime off. off. Wheels. Great product! Whoa, these things do everything. And she's not cruel. Let's just mix it with the strength we need. Clean up those who find it hard to remove love bugs from the front of your car. It won't hurt the color. Too much use to mention. This is the best all around cleaning this one bottle makes everything cleaner. RTU is almost too strong for any job, maybe a good concrete cleaning lol. You can dilute that for any cleaning job. It's the best I could find. With this I clean everything from the garage floor to the kitchen counter, bricks, laundry stains and everything else that has dirt or stains on the floor. That's my fifth bottle. I'm going to keep buying more. First of all, this thing is strong!!! For heavily contaminated plates, motor bays, towing planes work perfectly at a dilution of 4:1. For normal use, it can be diluted between 10:1-20:1. Be careful and always try in a small, unsymright place before continuing, diluting this powerful depletor can be tricky! It's an amazing unsupereal !!!!! One of our customers had a vinyl-wrapped vehicle, in matte white. At first glance, it looked good, but up close there were stains and dirt. regular washing did not work. But the 4:1 blend of D108 in a spray bottle and some microfiber and some rubbing, vinyl wrap came out spectacularly. For heavy jobs, that's a thing!!!!
