## Persona 3 portable social link answers female

Okay, I use the FEMALE MC that all of you know as 'Minako/Hamuko'. Now, my questions are this:1.) Can I have multiple lovers? / Can I go through the ALL the lovers' route at the same time?2. ) I finished Junpei's social link earlier than all the other potential lover social links. Well, the problem is, we didn't end up as lovers (well that's because of Chidori and I've heard that it's not ever possible to have a lovers end up with Junpei) but still, the biggest problem is, I try to go through Akihiko's lover trail next and he keeps thinking that I'm 'Junpei's girlfriend' and he once said that his fans are saying 'he's okay, now what's going to be that. Is it still possible to go through lover's route with him? I mean, I don't follow a guide/walk-through and all that flags things. (And all the walking doors I've ever read answering questions right and aren't really detailed.) 3. ) I missed one of Theo's date requests. (Yes, I did. I completely forgot about poor Theodore). Well, does that mean I can't progress with its social link anymore?4. ) I just started with Shinjiro's Social Link. Is it possible to maximize his Social Link just by giving him every night he's available? Or should I bring a Persona from his Arcana every time I'm going to meet him? Well, that's all. Please, I need your help! /OAO\]]]] For simplicity's sake, only the best answers and the romantic road answers are listed. Answers that are not listed are either bad or have no effect. I.
