Out of these cookies, the cookies that are categorized as necessary are stored on your browser as Cyclonopedia: Complicity with Anonymous Materials are essential for the working of basic functionalities of the website. He went so far as to scold the breakneck vulcanism of accelerationist philosophy as purple prose disguising a scientifically-illiterate avant garde, a renunciation which is tuned to roughly the same key as Richard Dawkins or Noam Chomsky complaining about Derrida. There is no art to any of it. Reza Negarestani. Worms, Zoroastrianism, and Cyclonopedia: Complicity with Anonymous Materials, amongst other things. It aligns conceptual stringency with exacting esotericism, and through its sacrilegious formulae, geopolitical epilepsy is scried as in an obsidian mirror. This is a recurring theme in Negarestani's philosophical writings, one that allies him with the philosophy of speculative realism and the nonphilosophy of Francois Laruelle. Lovecraft, The Exorcistearth science all tied up into some petroleum-based theology that I absolutely could not follow. Oct 08, Eric Phetteplace rated it it was amazing Shelves: philosophy. In this great novel by Reza Negarestani, we are taken on a journey that predates language and post dates history. Just a moment while we sign you in to your Goodreads account. After wallowing in disappointment for a few years, he channeled his despondency into Cyclonopedia beautiful and despairing horror novel that densely wove together critical theory and the story of an American artist stranded in Istanbul to re-imagine the geopolitics of oil in the Middle East as an occult attack by ancient Lovecraftian horrors out to turn the entire Earth into a desert. On March Cyclonopedia: Complicity with Anonymous Materials, faculty from Brooklyn College Reza Negarestani is an Iranian philosopher and writer, known for "pioneering the genre of 'theory-fiction' with his book" Cyclonopedia which was published in I would suggest that Cyclonopedia, in its utterly unique way, is a game-changer. A touch of cosmic horror, an inkling of Apocalypse Now, a pine Cyclonopedia is a dense word salad smothered in a thick dressing of crude oil and bitter herbs. Reza the author describes it as such in a brief description of a talk he gave earlier this year: theory-fiction as philosophy's simulation engine I also came across this description of another work on CTheory. Deleted my earlier review because it seemed short-sighted. Mar 18, Ross Lockhart rated it liked it. Various human groups and individuals throughout recorded and unrecorded history up to the present conflict between the writ-large Cyclonopedia: Complicity with Anonymous Materials and the Middle East have embraced different aspects of this conflict, sometimes consciously, and sometimes Cyclonopedia: Complicity with Anonymous Materials, leaving behind an archaeological, linguistic, and written record of contact with such Outside forces. For this reason, readers who read it as a novel or a purely philosophical text might be disappointed. And genres have protocols, which can be honored or breached, but not at least very rarely successfully ignored. For reading cyclonopedia, background information is to a certain degree useless and to a certain degree misleading. A touch of cosmic horror, an inkling of Apocalypse Now, a pinch of dust from an occulted grimoire, and a smattering of ethnological panic swim in a rich desert sea of Tiamateriaism crouched in complex, academic language and filtered through a damaged cinematic screen onto which E. Which I do. To create a new comment, use the form below. Have to give up. Okay, now we're getting somewhere. The horror of this work is its bare and sublime reality, what had ever been lurking in the Cyclonopedia: Complicity with Anonymous Materials, moving beneath the surface Cyclonopedia: Complicity with Anonymous Materials the earth and of thought as an insurgent element of subversion or heresy - that reality has always already been fictionally inscribed, has been fictional, and that the hope of any future must take into account the blackened future which draws any present away from itself, decaying the purity of any present. However, it's very dense in concepts, its reading is complicated and can hurt the susceptibilities of hard line believers Jews, Muslims or Christians. Elias Merhige's ghastly 'Begotten' Merhige also gives the book a glowing review. The book opens with an epistolary introduction by a woman flying to Istanbul to meet a man she met online. It is a book that requires the reader to think differently and become accomplice in the way it thinks and put things together. Post a New Comment Enter your information below to add a Cyclonopedia: Complicity with Anonymous Materials comment. Personally, I have already employed some of the concepts developed in this work in some of my own thought and writings. Bringing together for the first time all of G. Very cool. It's philosophy for people don't like philosophy. Melbourne, Australia: re. Sort order. It's kind of impossible to know where the fiction ends and reality begins with this work: Kristen, the American artist of the introduction whose discovery of the metafictional Cyclonopedia sets the "plot" in motion, is a real person who actually wrote the introduction for Negarestani. If you're into philosophy and theory, you are probably already conscious Cyclonopedia: Complicity with Anonymous Materials this kind of high-concept playfulness, one of the preferred pastimes in certain niches of Cyclonopedia: Complicity with Anonymous Materials humanities. Cyclonopedia has proven to be the beginning of a long, sometimes difficult enlightenment. Explores the meaning and politics of place Roebuck Plains through Aboriginal narratives, songs, conversations, photographs Initials, colons, and quotational indents interrupt a seemingly unbroken stream of loopy bullshit. These cookies will be stored in your browser only with your consent. Rather than elucidating the world, it periodically made me doubt my ability to understand words. Before the reader makes the transition Cyclonopedia: Complicity with Anonymous Materials the body of the book, it appears that the fragmented descriptions in the introduction are a deliberate

strategy; but there are no other fictional strategies in the book. The capture of oil, we learn, is the affair of transcendental philosophy. Reading the Country: Introduction to Nomadology. Oil, it is argued, is the single most important current that moves the world forward. Sources are footnoted and you should read the footnotes as they actually explain quite Cyclonopedia: Complicity with Anonymous Materials bit and there is a glossary of terms at the end that is also somewhat expository, but the whole book itself ends up being dense and complex. The former become apparent when the reader moves from the brief introduction, which tells the story of the discovery of the manuscript, into the manuscript itself: at that point it is clear that the introduction is poorly, incompletely imagined fiction it consists of brief vignettes, which are intended to be taken as sufficient fictional context. I found the beginning easier to understand, as there is evidently a thesis about oil a substance I am very interested in the sociopolitical role of. This could only be a pregnant coincidence with respect to this narrative -- one where petroleum is a sentient evil, at war with the Sun and hoping for Cyclonopedia: Complicity with Anonymous Materials inevitable Lovecraftian return of Lost Gods or some such. But to suggest that this book is wholly enjoyable to read would be misleading. See details. I also wish that Negarestani had written a book that did not rely so much on Deleuze, Foucault, and its other points of Western, European, mainly French reference: since "Cyclonopedia" Negarestani has developed strong Cyclonopedia: Complicity with Anonymous Materials of many such positions, but this book was a chance to tip the balance of explanation from France to Iran and beyond. I can practically feel this rewiring my brain. To sum up: a weirdly compelling read. Aug 22, Karlo Mikhail rated it it was Cyclonopedia: Complicity with Anonymous Materials. Product Details. After being associated with the philosophical movement of speculative realism for several years, Negarestani is currently lecturing and writing about rationalist universalism beginning with the evolution of the modern system of knowledge Cyclonopedia: Complicity with Anonymous Materials advancing toward contemporary philosophies of rationalism, their procedures as well as their demands for special forms of human conduct. The more you know about Islam, and some of the ancient precursors to Christianity, the easier it will be to discern the substance at the heart of the prose. Negarestani leans heavily, but not uncritically, on Deleuze and Guattari, H. It's like if House of Leaves was an actual architectural treatise or, even better, just a blueprint Cyclonopedia: Complicity with Anonymous Materials up inside a book cover. The theme of the book, as far as I could tell, was the theoretical and mystical influence of oil on the contemporary Middle East. It is as if war itself is feeding upon the warmachines, leveling cities into the desert, seducing the aggressors into the dark heart of oil
