My son loved this book when he was in first grade and now as a fourth-grader, he read again and again when I borrowed from the library for my review writing. The right half of the next cracker will be spread with cheese to show the first quarter moon. It would kind of be like when we went to Napa and he explained to me a bunch of things about how the grapes were grown for wine. Slinger... More. View Product. The manner in which the story is presented will be very appealing for young children, I think, and the illustrations by Steven Kellogg will draw them further into the adventure. Space is scary as hell! But when his hard-boiled goose eggs turn out to be real, live goslings, he starts to lose his appetite. But if I were to say, my fellow citizens, that we shall send to the Moon,miles away from the control station in Houston, a giant rocket more than feet tall — the length of this football field — made of new metal alloys, some of which have not yet been invented, capable of If You Decide to Go to the Moon heat and stresses several times more than have ever been experienced, fitted together with a precision If You Decide to Go to the Moon than the finest watch, carrying all the equipment needed for propulsion, guidance, control, communications, food and survival, on an untried mission, to an unknown celestial body, and then return it safely to Earth, re-entering the atmosphere at speeds of over 25, miles per hour, causing heat about half that of the temperature of the Sun — almost as hot as it is here today — and do all this, and do it right, and do it first before this decade is out — then we If You Decide to Go to the Moon be bold. If you average 3, miles per hour, you will get there in two-and-a-half days. The facts are embedded in the story which make it very easy for kids to follow. Aliens Love Underpants by Claire Freedman. Kevin Fong Why is the Moon landing still relevant 50 years on? Because she has a deep interest in animals and their behavior, she wrote about animals for The New Yorker for twenty years. It literally seems like if it were an instruction manual being read to you in a whole different fun way. With no

gravity, it would fly into a million drops and become orange juice fog.
