Open Veins of Latin America: Five Centuries of the Pillage of a Continent

Oh, and he does his research too. View all 3 comments. Galeano is particularly critical of the imperial forces beyond the shores of Latin American that have bled it dry for years, but he's also sharply critical of the "national bourgeoisie" of the independent Open Veins of Latin America: Five Centuries of the Pillage of a Continent of Latin America who allowed the ongoing exploitation at the expense of their poor, rural, and indigenous peoples. No trivia or quizzes yet. I think of this as a story, rather than history. Cedric Belfrage Translator. I do not quibble for a moment about the horrors of early Spanish colonization. Dialectical Urbanism. It is urgent and necessary. He addresses major historical changes in Latin American history in parallel to their neighbors and the larger European community. And then, you'll understand just how great the injustice is in this world. This book has left me with a complicated bundle of thoughts, and they seem to still transcend the pleasant shaping of words and punctuation into sentences, and sentences into paragraphs, and paragraphs into something that communicate. For the past month I have been collecting my thoughts and writing them out and putting them into paragraphs and shaping those paragraphs into a longer article of some sort. The consequences of a systematic effort by the powers of the world to strip away the richness of this continent, its cultures, its peoples, in an effort to destabilize them politically, financially, and geographically, and reap all of the benefits. Much less emphasis has been. For the past month I have been collecting my thoughts and writing them out and putting them into paragraphs and shaping those paragraphs into a longer article of some sort. I suspect that boredom can thus often serve to sanctify the established order, confirming that knowledge is a privilege of the elite. The current edition was published in with a foreword by Isabel Allende. A work of impressive scope, essentially the history of a whole continent. The book, written ages ago, is still alive and kicking. After reading multiple books by Galeano, there is one thing, if nothing else, that I have understood about the world. But the Liberation Theology wing of the church was a potential ally that went unnoticed or unmentioned. In the book, Galeano analyzes the history of the Americas as a whole, from the time period of the European settlement of the New World to contemporary Latin America describing the effects of European and later United States economic exploitation and political dominance over the region. Galeano is a journalist and he knows how to use words to move readers. No, this isn't just a book about Latin America. America's Addiction to Terrorism. One fact that still stays with me is that the shipments of gold and goods coming into Spain and Portugal, from their respective conquests, were actually shipped right back out to other countries because of their substantial national debts. If at least for the amount of historical and economical issues touched inside these pages it is worth reading, actually the chapter on the nature of international loans could had been easily written nowadays by just swapping the names of a few countries in for others in Europe. He blends in and out better than Open Veins of Latin America: Five Centuries of the Pillage of a Continent I know of. I cannot recommend this book highly enough. NOOK Book. This book is really about the world. And exploitation is the best way to understand it, as none of the industry or cities that came and vanished were for the benefit of the indigenous people. A thorough analysis of imperialism and colonialism in Latin America. For if only a tenth of what is said were true, it would still be a humanitarian story worth telling. Who don't speak languages, but dialects. Learn how to enable JavaScript on your browser. Thanks for telling us about the problem. In this concise and detailed work, Salim Lamrani addresses questions of media concentration and corporate bias by examining a perennially controversial topic: Cuba. Monthly Review Press. To ask other readers questions about Open Veins of Latin America please sign up. As soon as he saw him, the old man would start running and the postman, who knew all about it, held the letter in his hand. I think you will understand it when you read the book, when you understand his language and feel the fire-breathing passion that ignited its creation. But it's still a powerful examination and condemnation of the role that global capital Open Veins of Latin America: Five Centuries of the Pillage of a Continent played. Ensuing chapters might come to emotionally-loaded conclusions, but the presentation of evidence was impressive. Since then, every Monday at noon, the old man would be waiting for the postman to appear. What we call a lens is nothing but a kaleidoscope that guards the boundaries of our imagined realities. I have minimal background in Latin American history and know close to nothing about political economy and so this was very difficult for me to read and absorb anything. Life in the city can be both liberating and oppressive. Washington Times. Open Preview See a Problem? Rather than chronology, geography, or political successions, Eduardo Galeano has organized the various facets of Latin American history according to the patterns of five centuries of exploitation. Just not to confuse anyone about the ideological orientation of the author, the book is printed at least in my edition with a nice red cover. Eduardo Galeano's survey and assessment of the brutal, impoverished history of Latin American life at the hands of foreign interests has lost none of its underlying fury. Quotes from Open Veins of Lat And, surprisingly, it does all of this fairly well, if not perfectly, if not seamlessly, it does it well. It is also an outstanding political economy, a social and cultural narrative of the highest quality, and perhaps the finest description of primitive capital accumulation since Marx. Someone out there is encasing our encumbrances while at the same time we are relishing our lives because of someone else's hunger. This was a hugely important book when it first came out back in the early s. I'm learning much about the oppression, colonization, and economic exploitation of Latin America, and feeling fairly stunned that I never knew about this book. Yet it is still

quite accessible and any dedicated reader should be able to finish it. Dec Open Veins of Latin America: Five Centuries of the Pillage of a Continent, James Klagge rated it liked it Shelves: historytravel-regionalhispanic. It should be read by everybody. Galeano deserves a freaking medal for this. Rather than chronology, geography, or political successions, Eduardo Galeano has organized the various facets of Latin American history according to the patterns of five centuries of Open Veins of Latin America: Five Centuries of the Pillage of a Continent. This is a book about the world, our world, and how it came to be.
