Gibbons argues that understanding and embracing them now, instead of merely acknowledging that they are different or that they exist, will help us in the long run.

Citing various studies, Gibbons paints Net Generation students to be team-oriented, sociable, skilled multi-taskers, who crave or desire instant gratification, and personalized, customized user experiences. Gibbons has devoted a whole chapter to these attributes, reinforced by, or present in, the online games Net Gens play. These students are the first generation of digital natives, as opposed to previous generations of digital immigrants, who had, at some point, used or seen analog technology at work. Adapting technologies such as Web 2. Though the Web 2. Some may argue that this is mere common sense and that any entity or organization that does not keep up with the times in some shape or form will end in failure. Gibbons does recognize this she models her premise on organizational business theories, after all but she brings home the point that libraries and librarians may have a harder time adapting due to their reluctance to relinquish control of library practices learned and developed over many years that have defined librarianship.

Now, four years after the publication of her book, such features are
