No surviving material explains how this affects Hai or his captive siblings. Although the pagoda was supposed to have five floors, complete scenes were only shot for three of the floors: the "Temple of the Tiger," where Lee faced Inosanto; the "Temple of the Dragon", where he fought Ji Han-jae; and the final floor, known as the "Temple of the Unknown", where he fought Kareem Abdul-Jabbar NBA basketball player and Lee's student.

Hapkido master Hwang In-shik was slated to play the guardian of the first floor, a master of a kick-oriented style, while Bruce's long time student and good friend Taky Kimura was asked to play the guardian of the second floor, a stylist of praying mantis kung fu. The goal of the film's plot was to showcase Lee's beliefs regarding the principles of martial arts. As each martial artist is defeated including Lee's allies , the flaws in their fighting style are revealed. Some, like Dan Inosanto's character, rely too much on fixed patterns of offensive and defensive techniques, while others lack economy of motion. Lee defeats his opponents by having a fighting style that involves fluid movement, unpredictability, and an eclectic blend of techniques. His dialogue often includes comments on their weaknesses. The documentary also includes a fairly in-depth biography of Lee and leads into the filming of The Game of Death.

Fans still believe there is more footage to be found. Originally meant to be a documentary in its own right, it can now be found on the second disc of the Special Edition DVD release of Enter the Dragon , along with the documentary Bruce Lee: Curse of the Dragon. In , the Japanese film Bruce Lee in G. This film shows Lee's original vision of the film through the existing footage that was shot for the film before he died, interviews, and historical re-enactments of what went on behind the scenes. A "special edition" DVD was released in When Billy refuses to be intimidated by syndicate henchman Steiner Hugh O'Brian and his gangs of thugs, syndicate owner Dr. Land Dean Jagger orders his assassination to serve as an example to others. Disguised as a stuntman, Land's assassin, Stick Mel Novak , sneaks onto the set of Billy's new film, and shoots Billy during filming.

A fragment of the bullet passes through Billy's face, leaving him alive but in need of plastic surgery which alters his facial features. Billy takes the opportunity to fake his death and disguise himself, exacting revenge against those who wronged him one at a time. In the revised film, Bruce Lee's fight scenes inside the pagoda are assumed to take place in the upper floors of the Red Pepper restaurant, where Dr. Land and his thugs have laid an ambush. In the end, Billy survives the ambush, rescues Ann, and destroys each of the main mobsters one-by-one. The revised version of the film uses only 11 minutes and 7 seconds of the footage from the original The Game of Death , and for the vast majority of the film, the role of Billy Lo was shared by Korean taekwondo master Kim Tai-jong and Hong Kong martial arts actor Yuen Biao , and was voiced by Chris Kent.

The plot of the film allowed Kim and Yuen to spend much of the film in disguises, usually involving false beards and large, dark sunglasses that obscured the fact that they bore little resemblance to Lee. Many scenes, including fight scenes, also included brief close-up bits of stock footage of the real Bruce Lee from his pre- Enter the Dragon films, often only lasting a second or two.

These clips are easily recognisable due to the difference in film quality between the old and new footage. At one point in the movie, real footage of Lee's corpse in his open-topped casket is used to show the character Billy Lo faking his death. There is even a scene, taken place in Billy's dressing room, where a cut-out of Lee's face was taped to a mirror, covering the stand-in's own face. Several actors associated with previous Lee movies were included in the re-shoot for the final film. Sammo Hung , who appeared in Enter the Dragon , served as the fight coordinator for the film, and also appears in the scene as ring opponent Lo Chen for Miller. To maintain continuity with the fight footage taken from the original film, Dan Inosanto renamed Pasqual and Ji Han-jae whose character was unnamed and was not shown until near the end of the film were given small parts as additional enforcers for the syndicate.

Kareem Abdul-Jabbar refused to participate in the re-shoot, with another tall African-American stand-in renamed Hakim included instead. Although Chuck Norris is credited as starring in the film, his role is limited to clips from Way of the Dragon inserted into the film. The film quality of the Clouse-directed footage is noticeably higher than that of Lee's earlier Hong Kong films, and John Barry provided an original soundtrack. For Chinese-speaking audiences, the film was dubbed into Cantonese and Mandarin, and had significant changes, such as the inclusion of a fight in a greenhouse with Casanova Wong and a different opening and closing credits sequence, featuring a new theme song, plus a couple of minor scenes. Unlike the English version, these versions use Lee's actual battle sounds. Several scenes were removed as well, including the fight in the opera house dressing room. In the original Hong Kong version, the fight with Ji Han-jae is included although it occurs in the middle of the film , while the ending does not show Billy Lo being arrested.

Instead, both he and Ann share their good-byes to Jim as they appear to depart Hong Kong on a boat. The Singaporean version ends with Billy's arrest, and it does not feature the Ji Han-jae fight. This is the version commonly found in Chinese. The Mandarin-dubbed version of the film features a different theme song from that of the Cantonese version.

The theme song sounds similar to the main theme of Way of the Dragon. This version also includes the scene where Billy and Ann share their good-byes to Jim. The Cantonese-dubbed version shows the commonly found scene where Billy is arrested by the police. The American score was composed by John Barry. Game of Death was released in Hong Kong on 23 March The film was released in the Philippines by Asia Films on 15 December Another scene, often pointed out by critics of the film, involved a shot of Kim looking at himself in the mirror, with an obvious cardboard cut-out of Lee's face pasted onto the mirror's surface.

Bey Logan points out a few logic issues with the film. In order for the henchmen to remain low key, they should be wearing more casual clothes instead of the multicolored tracksuits seen at various parts of the film. But as a rationale, this explains why Lee wears the yellow tracksuit. Also, during the fight between Lee and Kareem Abdul-Jabbar, the scene near the vase in Logan's opinion appears to look choppy, along with the short fight with Hugh O'Brian. In the first half of the English version, during the fight sequences, Lee is seen to be beaten down instead of making short work of the henchmen.

Game of Death could be considered more accessible to Western audiences than Lee's previous films. After the death of Bruce Lee, several studios exploited the situation by making their own versions of Game of Death based on what they had learned of the story from production stills and magazine articles. Some of these films pre-dated Robert Clouse's official Game of Death Wong Jing's film City Hunter has a similar premise for a scene. Jackie Chan as Ryu Saeba takes on two tall black men, and the film uses clips of Lee's fight scene against Kareem Abdul-Jabbar to get the better of the two. The original film's concept of ascending a tower while defeating enemies on each level was highly influential, inspiring numerous action films and video games. Italian film scholars Simone Bedetti and Lorenzo De Luca identified Game of Death as an early example of what they call the "arcade movie" genre of action films. These "arcade movies" have three characteristic elements: the achievement of a goal , passing a series of levels , and ascending through a path whether physical or symbolic.

This is presented in Game of Death as Lee going up higher floors while facing increasingly dangerous opponents as he ascends the tower. The Raid , a Indonesian film , was influenced by Game of Death. It has a similar plot structure, set in a single main location, a grungy high-rise building, with grunts at the bottom and the big boss at the top. The plot structure of Game of Death , where a series of martial arts opponents each have a weakness that must be discovered and exploited, established the "end-of-level boss " structure used by beat 'em up games for decades.

The yellow-and-black jumpsuit which Lee wore in the film has come to be seen as something of a trademark for the actor, and is paid homage to in numerous other media. In the Clouse-directed remake, the filmmakers rationalised its presence by including a scene where Billy Lo disguises himself as one of Dr. What did you think of the movie? Game of Death - Wikipedia

Game of Death, it'll blow your mind. Did you know Edit. Crazy credits There is a post credit scene showing more footage of manatees. User reviews 17 Review. Top review. Off with their heads! Make no mistake, the plot for "Game of Death" is nonsensical, implausible and even downright imbecilic. On the other hand, it's also the most original, refreshing and straightforwardly efficient plot for a gory horror flick that I've seen in a few years. The idea behind "Game of Death" is refreshingly different and I feel obliged to give it some extra appreciation for that reason. The film starts with a group of young Millennial teenagers doing their thing: drinking by the pool and surrendering to their hormonal lusts.

They stumble upon a seemingly harmless and vintage board game called "Game of Death" and naturally don't resist to play. After "donating" drops of their own blood via the finger, the game determines that they must murder 24 people, or else they'll die themselves. Obviously they laugh away the concept at first, but things get dead serious when heads start exploding out of the blue. The script doesn't bother to explain, so I won't either, but somehow the game registers the murders they are committing and counts down until the next head-explosion. Some members of the group turn into psychopaths with brutal survival instinct, whereas others become philosophical martyrs. I've read about comparisons between this film and "Scanners" or "Battle Royale", but that's only because heads are exploding. The film is extremely gore, with lots of fake blood and mediocre CGI-effects, fast-paced and blackly comical.

The girls look yummy and the whole thing is finished after barely 75 minutes, what could you possibly expect more from a silly B-movie? Coventry Apr 19, Details Edit. Release date March 20, France.
