Dealing with family tragedy is never easy and fear makes things worse. The storyline is well written and the character detail is fantastic. The story is full of determination, discovery, love and steamy sex. Mike and Jenny's journey is heart wrenching at times but life is not always easy. Loved the story, love the author and look forward to more in the future. Received copy for review.

Loved this book! I read it in one day but got sick so my review is a little late but my opinion is the same Mike was not my favorite of the band because he was such a jerk. The jealous thoughts of hurting JR the blind date going through Mi Mike was not my favorite of the band because he was such a jerk. But you know the old saying, the bigger jerk they are the harder they fall and it was an epic fall. I love that this author makes all her female characters strong. They can be loving and caring but are definitely not doormat material. Aug 08, Diane rated it really liked it. In the midst of chaos, Mike Owens discovers an angel with a voice that will win Grammy awards and a pure and innocent heart that will threaten to bring this tatted bad boy to his knees.

Mike is the most talented guitar player in the world, living life in the fast lane, bedding as many women as he can without concern for the future because he's running as fast as he can from his tortured past. His band mates have no idea that he's on the cusp of disaster until Jenny gets caught in the crossfire w In the midst of chaos, Mike Owens discovers an angel with a voice that will win Grammy awards and a pure and innocent heart that will threaten to bring this tatted bad boy to his knees. His band mates have no idea that he's on the cusp of disaster until Jenny gets caught in the crossfire when his vicious tongue and his reprehensible attitude toward women exposes his faults for all to see.

Mike is a conflicted character whose story is not for the faint of heart but I thought it was transformative and starkly unapologetic. Jan 17, Christine Jalili rated it it was amazing. Poor Mike, will he ever be what Jenny needs? Will she give him another chance, or end up with JR? Will the band ever get back together? Each book can be read as a stand-alone but is better if you read them all in order. Loved the ending too. I highly recommend this book. Nov 19, Ange rated it did not like it. The characters were completely unredeemable. Mike was in love with Jenny Lynn but, he was off nailing anything in a skirt and Jenny Lynn, the good little preacher's daughter, broke off their relationship despite the epic road they journeyed to get together because he didn't want kids. Less than a month after breaking up, she's having sex another guy.

And what selfish twit uses another guy to see if she is better off living an "uncomplicated life". Mar 21, Sandra rated it liked it. I wavered between two and three stars for this. I almost DNF'd it, but stuck with it and found it improved as the story went on. I did feel like it needed a bit more at times. For instance Jenny is a virgin, yet she dated someone for two years previously, so what was with that?

No explanation. The end felt a little flat too. Overall though I did enjoy it, I like seeing Jenny through Mike's eyes, how he saw her as his sunshine. What a dog he was at times no that's not right alllllll the tune. Poor Jenny, the preacher's daughter didn't have a chance of not falling for the bad boy. Can Mike and Jenny make a go out of it along with her singing career or will she be better to stay a elementary teacher? Mar 03, Suzette rated it it was amazing. A wonderful read bout finding yourself and letting go of your demons. Oct 10, Jeanette montgomery rated it it was amazing.

I love this series!!! I loved this book from start to finish. I love the characters and the story. Originally posted on www. Her Lush series revolving around the members of a band named, you guessed it, Lush, is one of my all-time favorite series. Not much to like about him, am I right? Laurence was going to change my mind about him. What happened to Mike was truly unthinkable and my heart broke for him. His horrifying past left him severely scarred and damaged inside. Mike feels she deserves someone much better than himself. However, Jenny sees a sweet, caring and considerate side of Mike that no one else gets to see. A fucking fucked-up mess. I could go nuts at any point. I could end up like her—my mother. Your parents hate me—hell, they disowned you because of me. Well...you kind of were until you met Jenny :.

Some rough patches are my entertainment, but your ultimate success is still my hope. I loved seeing the other Lush guys and their girls again as well, although there was absolutely not enough Walsh! Laurence if you are reading this, you can never go wrong with more Walsh :. My only complaint is that the end wrapped up a little too quickly for me.

I felt like it would have been more satisfying as a reader had we actually seen Mike work through his issues, rather than been told, before getting his happily ever after. I cannot emphasize this enough! It is superbly written; has interesting, realistic and loveable characters dealing with real issues; contains lots of interconnecting, complicated relationships that make for great reading and is written in a way that gets you feeling all the feels right along with the characters. Lowdown and Lush was another fabulous addition to the amazing Lush series. I seriously cannot recommend this series enough. My rating: 4 fabulous stars! Selena Laurence keeps surprising me with the depth of her characters and her writing. I can't recommend this book, or this series, enough. It is just that good. These four band members of Lush have stolen my heart and made me a forever fan of Selena's brilliant writing. Lowdown and Lush is Mike Owens' story and just like the other Lush band members Selena has given this bad boy an incredible back story.

Mike is the lead guitari Selena Laurence keeps surprising me with the depth of her characters and her writing. Mike is the lead guitarist and in a band of bad boys, THE bad boy. He is over six feet of tall, dark, gorgeous, muscle that oozes sex appeal, drinks too much and has a different woman or two every night to keep his memories and fears at bay. He's got secrets even his best friends and band mates don't know about. Demons that haunt him and feel like a ticking time bomb where a horrible end is certain. An end he is convinced is his destiny. He refuses to allow anyone, especially Jenny, the angel he has fallen for, be tainted by him.

Jenny Turner is an aspiring country singer with enough talent to take her to the big time. The picture of all that is good, innocent and sweet, a kindergarten teacher no less, all wrapped up in a blonde bombshell body that drives Mike wild. She's also a preacher's daughter who has lived under her father's harsh and controlling thumb all of her life. Her music is her path to freedom to finally make her own decisions and go after what she truly wants instead of what she is told to be. Next to a professional music career, tattooed bad boy Mike Owens is what Jenny wants. She sees what he is, what he shows the world, but she also sees his generous side, the side that is loyal to his friends and kind to her.

He is everything her parents hate and she can't help but love him even knowing he will probably break her heart. My heart is the one that was broken, Mike and Jenny do not have it easy. They are so different and there are so many things fighting to keep them apart. But their attraction and chemistry is overwhelming and impossible to deny. It leaps from the pages and wraps you up in their love, in their drama, in their heartbreak, in their passion and thank God finally in their happy ending.

Mike and Jenny really are enough to make this a wonderful must-read book, but it also has all the other Lush characters fully entrenched in the story. Not just glimpses here and there. Colin is there too with teases of his story to come. Joss was my first Lush love and his role in Mike and Jenny's love story was integral. This wonderful man was stealing my heart all over again and he wasn't even the main character.

Lowdown and Lush was amazing!!!! Hands down probably until her next book ...Mike is my new love. I am not going to waste time with writing a lengthy synopsis because I want readers to discover Mike for themselves. Now, on to the many reasons you have to read thi Lowdown and Lush was amazing!!!! Now, on to the many reasons you have to read this book NOW!!!!

At times, I thought my Kindle would catch on fire with all the heat these two generated. Mike is the quintessential bad boy rocker with a dirty mouth and dirty mind, and Jenny is the sweet, innocent daughter of a minister who is just on the brink of gaining her own independence. So, the two of them are the perfect together! As much as I enjoyed the romance and sex, the book addresses some very serious issues and touched my soul in a way not many books have before. You see...Mike is a tortured soul. He has allowed this darkness to hold him back from connecting completely with anyone until Jenny enters his life. She offers him goodness and light, but he feels like he can never be what she deserves. Selena has taken the topic of mental illness and shed some much needed light on it. I think many people can relate to Lowdown and Lush because a lot of us have family and friends who struggle with mental illness.

I hope others who live with the same issues will find hope in the characters and the story. I am always in awe of her amazing talent. She just gets better with every book! Thank you, Selena, for writing such a poignant book that truly touched my heart! Joss, in contrast, is much lighter these days. Having found happiness with Mel, he becomes a bit of a leader again, though not of the band, which is still broken up. Mike is tormenting himself, denying himself of the one woman who has touched his heart and looks past his rough exterior. Jenny Turner is an up and coming country singer, managed by Tammy. Poor Michael. I know he almost ruined Mel and Joss—and Tammy and Walsh too—but it all ended up fine. Well, almost fine. I guess the band is still broken up, so there is that. Joss, Mel, and Tammy through the course of the book make him man-up, straighten up, and get his shit together.

I was happy to see his actions never brushed over. Although Mike learns from his previous missteps and mistakes, what he did to the band is rightfully not excused, simply explained. But then I'm neither a country music kind of girl nor from a religious background so it could just be that. I was mostly neither here nor there about her. I didn't exactly feel the chemistry between her and Mike like I did Joss and Mel, who remain my Lush couple favorite. I definitely enjoyed their inclusion in the story. At the same time the tale is just as much drama as love story. This is a story about mending old wounds from the past to move on a better future.

Each of the books has been heartfelt, sexy and so well written. It's impossible not to fall for the Lush guys. Mike is, well was, the lead guitarist for Lush. After the band broke up, he headed down to Texas, to support Walsh. In a small bar, he met a girl with a powerful voice and the face of an angel. Jenny is a small-town preacher's daughter, but she dreams of more than just being a teacher and living a simple life. Mike knows she can be the next big thing in coun 4. Mike knows she can be the next big thing in country music, so along with Tammy, her new manager, they set out to make her dreams come true. Mike and Jenny spend the summer touring together, trying to get her some recognition, and neither want their time together to end.

So, Mike comes up with a way to keep her close. They've become best friends, but it's easy to see, they could be so much more. No way is he going to let that happen though. In his mind, he'll never be good enough for her. He's hauling around some serious baggage from his childhood and he tries to deal with it by burying it in any and every willing girl. Jenny can see past it all though, to the true Michael. She's inexperienced and still learning to go after what she wants, but she knows deep down that he's the only guy for her. He just needs to let her "sunshine" chase away his darkness. He was put in a tough spot with Joss and Tammy and this story gave more insight into why he took that so hard. He's so much more than the man-whore, secret blasting, jerk he appears to be. He's really a generous guy with a huge heart. I love that he's always so supportive of Walsh, but it's hard to see the strained relationship he has with Joss.

Although, it's getting better, way better. I loved that the other two couples played such a big role in his story too. It's great catching up with the rest of the band and I'm super excited to see what secrets Colin is hiding! I highly recommend this series! Aug 28, Maddy rated it really liked it. I didn't find this book to be as good as the second in the series, and it took me way longer to get through it because I just got a little bored. That being said, it was still a pretty good book, overall. I loved getting to see a new side of Mike. For the past two books, I haven't liked him because all we've seen is what a huge douche he can be. He was there helping Walsh, which was nice, but he wasn't at all nice to Tammy and I was really rooting for her and Walsh so that just made me dislike hi I didn't find this book to be as good as the second in the series, and it took me way longer to get through it because I just got a little bored. He was there helping Walsh, which was nice, but he wasn't at all nice to Tammy and I was really rooting for her and Walsh so that just made me dislike him more.

However, in this book, he's much nicer. We finally get to see a soft side, as well as his dark past. I also loved that the author again took on a difficult topic: mental illness. I found that his actions were a little overplayed — his past certainly should have messed him up a little but I found that

I just couldn't justify all of his actions with that like the author clearly wanted me to. I give her a little leeway with that, though, because it's a hard topic and I've never been in that situation so I may be interpreting or imagining it wrong.

I did not like Jenny for most of the book. I honestly found her to be a bit irritating. However, there were parts of her character that I could relate to — her parents throwing her out and her desire to have a family again, for example. Some of the things she did just honestly made the romance between her and Mike seem a little fickle to me. About halfway through this book, things are going well for the characters and everything's peachy keen. I obviously knew something was going to happen to upset the peace, because there was still over a hundred pages left, but I just struggled to read to that. I lost count of how many times I picked up the book to read and got about 3 pages in before I lost interest again. I stuck with it though and eventually it picked up a little and I was able to finish it rather quickly after that.

Overall, I would say that this was a good third book in the series. It followed the second well and opened up new opportunities for the characters and it also gave us a little more information about Colin, whom the fourth book is about and made me look forward to finishing the series. Holy Mike Owens! Selena Laurence never disappoints. I could not wait to see what was going on in his head and why he was so angry. First I have to say that I think this is my favorite Lush Series cover yet. It is gorgeous! The two of them have chemistry that is beyond crazy, Holy Mike Owens! The two of them have chemistry that is beyond crazy, like if you were standing in a same room as these two granted they are fictional characters, there would be flames coming off of them.

We all know from previous books that Mike is a bit of man whore, but he is keeping himself from her and keeping them to just friends. Mike had me so mad a few times during the book. Jenny is too sweet of a woman for Mike when he is acting like that. I loved these characters when I finally swiped over to the last page. I started this book yesterday afternoon and just kept going, going, going, until I was done with it a couple of hours later. Oops, was I supposed to cook dinner last night? I was so glad that all of my favorite Lush guys and their SOs made an appearance in this book. I really enjoyed the interactions between Joss and Mike. Next up! Thank you so much for my copy of Lowdown and Lush! Mike's story. Fans of this series have been eagerly waiting for it and Laurence did not disappoint.

Mike was definitely the bad boy in rush. He used women, made no apologies for it, and had no intention of stopping. Well, that was until he met Jenny. Pure emphasis on the pure and sweet Jenny. Mike wanted her something fierce but he was determined not to taint her with his personal demons. But Jenny wasn't having it. She loved Mike since she first met him. But her frustration with him grew the Mike's story. But her frustration with him grew the more he kept her at arms length. I won't rehash the entire story for you because I don't want to ruin it. Mike Owens is the devil. Jenny Turner is an angel.

Can this angel handle the truth behind her devil? Or will his secrets be too Lowdown and Lush? In her rock star romance A Lush Betrayal was a finalist in three national contests.
