Chicago Tribune: Chicago news, sports, weather, entertainment

I love the way it looks! White Loft is an Austin-based, woman-owned small business that specializes in growth charts, gifts, and home organization. Promising review: "These are great! My kindergartner will easily be able to get himself dressed for school. I plan to buy these for my other kids as well so my husband can dress our kids in clothes that actually work together ha! Great quality and great idea! It's also a lot more cost effective and environmentally friendly than wine wands or other competitors — a single bottle of this can be used to treat up to 55 glasses of wine ,

as opposed to wands that can only do a few glasses each before they get tossed. Drop It recommends one to two drops for each glass of white wine, two to three for a glass of red, and seven to nine if you're treating the whole bottle at once. Once it's in the glass, swirl lightly for 20 seconds, and you should be raring to go!

Promising review: "For many years, I have been that friend that always says 'no thanks, I can't drink wine. So I gave up. Several weeks ago, I happened across an ad for Drop It and thought I might as well give it a shot. I took a big risk the day it arrived and had two huge glasses of red wine that I knew would give me a massive migraine the next day.

It just so happened I had a midterm that next morning, too — so the stakes were high. I woke up feeling fantastic. Since then I have repeated the experiment to make sure it wasn't a fluke and found that no matter how much wine I drink, as long as I use the drops, I don't have a migraine the next day. I'm so pleased to have found something that makes wine drinking possible and enjoyable again! I have nothing but great things to say about the product. It's easy to use and very discreet. I visited some friends last week and we spent a few hours at a wine bar. It was easy to add my drops. I took a small taste of the wine before adding the drops and found that it did not alter the taste at all. Thanks for a great product and a great buying experience.

I will be back for more. Psst — this tool is double sided, so you can choose the thickness of your wing, and comes with two stamp pens — one for each eye! Promising review: "You need this stamp! I have never in my life been able to draw a wing properly. I kept seeing this advertised everywhere and thought, what the heck. Super easy to use, you don't need a lot of practice. I love that it's highly pigmented as well. I originally wanted the medium classic size but it's on backorder. I opted for the 8-mm mini size instead, and I'm glad I did. I think the size is appropriate for the shape and size of my eye.

All in all, great purchase!!! Promising review: "I am so glad I got this. It makes for such great streamlined storage. Keeps things tidy and neat, and also helps me keep track of how many cups I have left to determine whether or not I need to add to my grocery list. It is very sturdy and I fit my machine on top. The top is very durable, hard plastic and does not buckle with the weight of the machine filled with water on top. Promising review: "I absolutely love this wallet. I needed a new travel wallet, and this holds everything I need all in one place, and it still closes nicely and stays flat!

It's just amazing. I definitely recommend to anyone who travels a lot! Promising review: "I love this so much! I have been looking for something for all of the grocery bags I keep! We use these for our bathroom trash bags. This little thing is a awesome. And my kids can easily reach inside and get a bag out! Love it! I took two of them into Target today for groceries, and ended up only needing to use one. These bags can hold a lot of items. They are strong, easy to clean, and fold up into the attached pouches within seconds.

I store mine in my center console of my car. I have been promoting these to my friends and family, and they are already making purchases. These are worth every penny. Promising review: "I have tried everything I could think of to cut back on hair clogs. I definitely became a pro at taking apart my drain to clean it which is a disgusting process. Between my long hair and having two dogs who shed in the bed when we aren't around there is a lot of hair of different lengths. This simple creation catches it all and is easy to get the hair off. The drain stopper still works for baths and the soft silicone is more gentle if a kid rubs it than the original screw-on drain cover. Bonus: This also stops the inside liner of your purse from getting dirty if anything happens to explode been there, cleaned the Panera butter packet out of that. Promising review : "Fantastic quality and completely changes the game of big-tote organization.

Love everything about it. Promising review: "It was just what I needed for my messy and unorganized truck! I wanted something not too bulky, but just the right size to help me reorganize my trunk. This product did that for me. This product does not take up a lot of space and gives you the right amount of measure to place other things like groceries and a suitcase. I am completely satisfied and content with this product! I wish I had it all along!

Promising review: "This bag held surprisingly more than expected. I put tiny travel jars for my skincare creams and other small toiletries in it with room to spare. I definitely feel like it was easier to pack and was also easy to grab out of my bag for security. It feels sturdy with nice, thick vinyl. The double zipper moved easily, and I was pleased that it opened completely for ease of getting the items I needed out of it. Another bonus? I use it to prop up my feet during work hours and sometimes if I want to eat on my couch I'll use it as a tray.

It's also sturdy enough to sit on, if I ever wanted to have guests over and needed an extra chair. It also just looks so darn cute and comes in so many colors that I'm tempted to buy another! Promising review: "I was using a small foldable step stool in my bedroom to reach the top shelves of my wardrobe. This ottoman brings me joy. Promising review : "I love the finish on the bottle! I hate holding wet water bottles and this does NOT sweat! It also holds two full bottles of Easy to carry, fits in my car's cup holders perfectly not big at all like some water bottles. Easy to clean, wide enough for bottle brushes, and the straw stays put. Highly recommend this water bottle. Keeps my water cool for hours too. A set of bed bands that will lock your fitted sheets neatly into place so you can stop shoving the loose corners under your duvet whenever you're too tired to remake your whole bed in the morning. An adorably encouraging daily planner you can fill out the night before to make sure all your priorities are planned and on track for the next day, then rip off and take along with you on all your errands and adventures.

Amazon, amazon. Each planner comes with 50 tear-off sheets the size of a standard piece of paper. A weekly pill organizer designed with push-through silicone lids to easily organize your pills at the beginning of the week, meaning you don't have to spend a bunch of time rooting through pill boxes and trying to remember the timing of them each morning. They're also stackable, so no space wasted in the fridge. We love to see and eat it. A pair of super-comfy period-proof underwear designed to hold two tampons' worth of period blood. Psst — reviewers love these undies, but suggest sizing up! A jar of internet-beloved The Pink Stuff , which tackles so many darn things that it'll be the BFF of every room in your house.

Need to paint over a stain on the wall? Get it off with The Pink Stuff. Think you need to replace that caked-over grimy pan? Put The Pink Stuff to the test. About to hire cleaners to tackle whatever the heck is going on in your tub? A set of velvet closet hangers designed to cling ever so slightly

to your clothes, both so the clothes stay put more firmly on the hanger, and so they flatten a bit to reduce the bulk of some of your clothing hello, all 10, of my oversized flannels takes up. A mini steamer for your clothes that heats up in literally a minute and a half, so you can skip the lengthy process of pulling out the iron and ironing board and being mega careful not to burn anything.

A rose-gold rechargeable electric lighter you can use to replace those clunky, unsightly gas ones and the pile of matches in your drawer. This one is not only chic as heck, but completely flameless, and made with a long stem so you can use it to light gas burners and larger candles without dealing with an open flame. The Always Pan from Our Place , which is perfect for anyone who has big culinary ambitions, but needs a highly functional! Basically, if you can dream it, you can cook it in this bb. A mini trash can you can slide into a drink holder or the backseat pockets as an easy way to cut down on miscellaneous clutter you will inevitably have to go on an Indiana Jones—esque deep dive to collect later. An electric pressure washer you can use allllllll over your outside space on everything from the deck to the house to the outdoor furniture. Come for the cleanliness, stay for the ridiculously satisfying results. A set of minimalist hooks for a uniform, orderly way to store and show off your favorite accessories and precious plant babies, aka the lights of your life.

A custom leather key organizer to not only give you peace of mind that one of them isn't sneakily sliding off the ring and into the abyss, but also that they won't scratch up your bag or your hands any time you go reaching for them. Each set includes five hangers for Monday through Friday. A bottle of Drop It , a natural wine sulfate and tannin remover that works its magic on your glass in just 20 seconds, so you can rest easy with your nightly glass of Pinot knowing you've spared yourself the infamous Post-Wine Headache or allergic reactions. Each of these holds up to 36 standard-sized K-Cups. A purse organizer insert you can easily slide into any bag, from a tote to a designer dig, for instant pockets to organize your life.

Another perk? If you're switching out your purse, all you have to do is slide the organizer out and pop it in with all your stuff raring to go. An internet-beloved time-marked water bottle designed to prevent mess — not only is the spillproof mouth piece super easy to access, but it the water bottle won't sweat even when the water inside is super cold as much as we all love accidentally getting everything wet with our clammy hands. Now, with this system, I find what I'm looking for the first time. And when a bin is empty, I know I need to buy more of that product and just ask my smart home to add that item to my shopping list. Very grateful for the sense of calm and control that this fridge organization system has given me , and for all of the food that is no longer going bad in the back of the fridge! Hi, that's my fridge up above, and also proof to my parents that I have eaten a vegetable this year, thank you very much!! Every week when I grocery shop I just pull my produce outta the bags and stick them right into these babies.

They really do keep them fresh a whole lot longer — I never ever have to throw fruit and veggies away before next week's grocery shop. But what I love is that it's really organized the inside of my fridge to a degree where I'm never struggling to find anything. Wish I'd invested in these years ago! We buy only organic produce which does not tend to last very long and when you pay as much as we do for organic you don't want it going bad so fast. My favorite thing about these is that it keeps my lettuce crisp and fresh for weeks, not days. I've been able to buy bunches of lettuce and keep them in the fridge for several weeks. I keep the second container for strawberries, asparagus, blueberries, etc. Not only that but it prevents them from molding after only a few days so I'm not worried about having to eat my strawberries in two days now.

Will definitely be buying more in the future. Totally worth every penny and super easy to wash and dry. Check out BuzzFeed's full review of the produce savers for more deets! SereniiKey is a Canada-based, woman-owned Etsy shop established in that specializes in leather keychains and accessories. Promising review: "It came in exactly as I expected! The colour and material is beautiful, and i love the simplicity of it. Was very easy to put together and move my keys onto as well! This spray also does a number on all those other miscellaneous stains in your life, like wine, coffee, soy sauce, makeup, and period blood!

I recently bought this to test it for myself, and can attest to how well it works to get period blood out even after you've tried something else. I stained a pair of beloved bright blue bike shorts in my sleep and tried to get it out with soap and water, but the stain was still there when it came out of the wash. I treated it with this, stuck it back in the wash, and BOOM, it's like it never happened I panicked before I could get a before and after, please forgive me, laundry gods. My clothes are a mess by the end of the day. I'm not proud of it, but there it is. There is simply not a major stain remover that I have not tried. The only thing close is a long presoak I mean like six hours in Oxyclean. With Puracy, you get the best result by doing it well in advance, but for me that is another plus because I would far rather spray them when I put them in the hamper than do it all at once just before I do the laundry.

It seems to get everything out and I've never had any trouble with damaged fabric. I don't really review very much, but this is seriously outstanding. Promising review: "Repeat customer! I purchased one to organize the garden tools rake, hoe, cultivator, shovel, etc. Liked it so much, going to install another next to it for the other items. The hooks are a nice feature to hold our gloves and a simple plastic bag to hold things when needed.

Promising review: "I wanted to get rid of an old jewelery box I had and get something more sophisticated and grownup. I had a hard time finding something that would be big enough for all my pieces, fit on my dresser, and look good. This does all these!!! My long necklaces fit on the tallest, back hanger and all my bracelets fit on the other two. The few rings and earrings I own display well on the bottom tray. It's a beautiful piece and I'm so happy I bought this!! Promising review: "This has been a lifesaver for me! My purses are no longer all over the floor in my closet. They all fit nicely on here. I love this so much. The packaging was nice and everything came in perfect condition.

I have about 10 purses on it right now and it's really nice and strong. It fits on my door perfectly but you do have to push on the door a bit in order for it to fully close and open. However, that is not a problem for me at all. It's very easy for me to see all my purses now and my closet is no longer a mess. From other reviews I've seen, I know this can definitely hold a lot of weight and way more bags then I have on it. I love the way it looks! White Loft is an Austin-based, woman-owned small business that specializes in growth charts, gifts, and home organization. Promising review: "These are great! My kindergartner will easily be able to get himself dressed for school. I plan to buy these for my other kids as well so my husband can dress our kids in clothes that actually work together ha! Great quality and great idea! 52 Products With “I’ve Got My Life Together” Energy

As per standard practice for American animation production at the time, Barbera and Hanna did not work with a script beforehand. The rise in television in the s caused problems for the MGM animation studio, leading to budget cuts on Tom and Jerry cartoons due to decreased revenue from theatrical screenings. In an attempt to combat this, MGM ordered that all subsequent shorts be produced in the widescreen CinemaScope format; the first, Pet Peeve , was released in November However, the studio found that re-releases of older cartoons were earning as much as new ones, resulting in the executive decision to cease production on Tom and Jerry and later the animation studio on May 15, Before , all Tom and Jerry cartoons were produced in the standard Academy ratio and format; in and , some of the output was dually produced in dual versions: one Academy-ratio negative composed for a flat widescreen 1.

From until the close of the MGM cartoon studio a year later, all Tom and Jerry cartoons were produced in CinemaScope; some even had their soundtracks recorded in Perspecta directional audio. All of the Hanna and Barbera cartoons were shot as successive color exposure negatives in Technicolor. Sound effects were produced by electronic music composer Tod Dockstader and Deitch. The majority of vocal effects and voices in Deitch's films were provided by Allen Swift and Deitch. Deitch states that, being a " UPA man", he was not a fan of the Tom and Jerry cartoons, thinking they were "needlessly violent". Background art was done in a more simplistic, angular, Art Deco -esque style. The soundtracks featured sparse and echoic electronic music , futuristic sound effects , heavy reverb , and dialogue that was mumbled rather than spoken. Whereas Hanna-Barbera's shorts generally took place in and outside of a house, Deitch's shorts opted for more exotic locations, such as a 19th-century whaling ship, the jungles of Nairobi , an Ancient Greek acropolis, or the Wild West.

In addition, Mammy Two-Shoes was replaced as Tom's owner by a bald, overweight, short-tempered, middle-aged white man, who bore a striking resemblance to Clint Clobber. Just like Spike the Bulldog, he is also much more brutal and violent in punishing Tom's actions as compared

to previous owners, often beating and thrashing Tom repeatedly. To avoid being linked to Communism, Deitch romanized the Czech names of his crew in the opening credits of the shorts e. Vogel had approved of Deitch and his team's work, but MGM decided not to renew their contract after Vogel's departure. Deitch's shorts were commercial successes. In , the Tom and Jerry series became the highest-grossing animated short film series of that time, dethroning Looney Tunes , which had held the position for 16 years; this success was repeated once more in The s entries were done in Metrocolor but returned to the standard Academy ratio and format. After the last of the Deitch cartoons were released, Chuck Jones , who had been fired from his plus year tenure at Warner Bros.

Beginning in , Jones and Goldman went on to produce 34 more Tom and Jerry shorts , all of which carried Jones' distinctive style and a slight psychedelic influence. Jones had trouble adapting his style to Tom and Jerry ' s brand of humor, and a number of the cartoons favored full animation, personality and style over storyline. Coyote , a less complex look including the color of his fur becoming gray , sharper ears, longer tail and furrier cheeks resembling Jones' Claude Cat or Sylvester , while Jerry was given larger eyes and ears, a lighter brown color, and a sweeter, Porky Pig -like expression.

Coyote and the Road Runner , included the uses of blackout gags and gags involving characters falling from high places. Jones co-directed the majority of the shorts with layout artist Maurice Noble. These shorts contain a memorable opening theme, in which Tom first replaces the MGM lion, then is trapped inside the "O" of his name. Though Jones's shorts were generally considered an improvement over Deitch's, they nevertheless had varying degrees of critical success.

MGM ceased production of Tom and Jerry shorts in , by which time Jones had moved on to television specials and the feature film The Phantom Tollbooth. Beginning in , the Hanna and Barbera Tom and Jerry cartoons began to appear on television in heavily edited versions. The Jones team was required to take the cartoons featuring Mammy Two Shoes and remove her by pasting over the scenes featuring her with new scenes. Most of the time, she was replaced with a similarly fat white Irish woman; occasionally, as in Saturday Evening Puss , a thin white teenager took her place instead, with both characters voiced by June Foray.

However, recent telecasts on Cartoon Network and Boomerang retain Mammy with new voiceover work performed by Thea Vidale to remove the stereotypical black jargon featured on the original cartoon soundtracks. The standard Tom and Jerry opening titles were removed as well. Instead of the roaring MGM Lion sequence, an opening sequence featuring different clips of the cartoons was used instead. The title cards were also changed. A pink title card with the name written in white font was used instead. This format has not been used in newer Tom and Jerry entrees. The Filmation Tom and Jerry cartoons were noticeably different from Hanna-Barbera's efforts, as they returned Tom and Jerry to the original chase formula, with a somewhat more " slapstick " humor format.

This incarnation, much like the version, was not as well received by audiences as the originals, and lasted on CBS Saturday mornings from September 6, , to September 4, Turner sold the company a short while later, but retained MGM's pre film library, thus Tom and Jerry became the property of Turner Entertainment Co. It featured a youthful version of the famous cat-and-mouse duo chasing each other.

As with the H-B series, Jerry wears his red bowtie, while Tom now wears a red cap. Spike and his son Tyke who now had talking dialogue , and Droopy and his son Dripple, appeared in back-up segments for the show, which ran until November 18, It featured Joe Barbera who was also a creative consultant as the voice of Tom's owner, whose face is never seen.

In this cartoon, Jerry, housed in a habitrail , is as much of a house pet as Tom is, and their owner has to remind Tom to not "blame everything on the mouse". This marked Barbera's first return as a writer, director and storyboard artist on the series since his and Hanna's original MGM cartoon shorts, and last overall; he would die shortly after production ended.

The short debuted on Cartoon Network on January 27, The short was filmed in the standard Academy ratio and format. A relaunch of the theatrical shorts series was planned for alongside a similar relaunch of the Looney Tunes theatrical shorts, but was canceled after the financial failure of Looney Tunes: Back in Action. In , a new series called Tom and Jerry Tales premiered. Thirteen half-hour episodes each consisting of three shorts were produced. Some of the segments, like The Karate Guard , had originally been produced and completed in as part of the planned theatrical cartoon relaunch. Tales is also the first Tom and Jerry production produced in widescreen aspect ratio but was cropped to fullscreen aspect ratio when initially aired on in the United States.

The series was canceled in , shortly before the Kids' WB block shut down. Cartoon Network , which began rerunning Tom and Jerry Tales in January , subsequently launched a series titled The Tom and Jerry Show consisting of two minute shorts per episode that likewise sought to maintain the look, core characters and sensibility of the original theatrical shorts. Similar to other reboot works like Scooby-Doo! Mystery Incorporated and New Looney Tunes , several episodes the new series brought Tom and Jerry into contemporary environments, telling new stories and relocating the characters to more fantastic worlds, from a medieval castle to a mad scientist's lab.

The series was produced by Warner Bros. Originally slated for a Cartoon Network premiere, [33] the series wS pushed back to April 9, It is the second Tom and Jerry production presented in widescreen aspect ratio. In November , a two-minute sketch was shown as part of the Children in Need telethon in the United Kingdom, the sketch was produced as a collaboration with Warner Bros. On February 20, , Warner Bros. When shown on terrestrial television in the United Kingdom from April to February , usually on the BBC Tom and Jerry cartoons were not edited for violence, and Mammy was retained. When faced with disruption to the schedules for example when live broadcasts overran , the BBC would invariably turn to Tom and Jerry to fill any gaps, confident that it would retain much of an audience that might otherwise channel hop. Due to its very limited use of dialogue, Tom and Jerry was easily translated into various foreign languages. Tom and Jerry began broadcast in Japan in A nationwide survey taken in Japan by TV Asahi , sampling age groups from teenagers to adults in their sixties, ranked Tom and Jerry 85 in a list of the top " anime " of all time; while their web poll taken after the airing of the list ranked it at 58 — the only non-Japanese animation on the list, and beating anime classics like Tsubasa: Reservoir Chronicle , A Little Princess Sara , and the ultra-classics Macross and Ghost in the Shell.

In Japan, the word "anime" refers to all animation regardless of origin, not just Japanese animation. Unlike some other Western cartoons such as Bob the Builder and Postman Pat , whose characters had to be doctored to have five fingers in each hand instead of the original four, [49] Tom and Jerry aired in Japan without such edits, as did other series starring non-human protagonists such as SpongeBob SquarePants. Tom and Jerry have long since been popular in Germany. The different shorts are usually linked together with key scenes from Jerry's Diary , in which Tom reads about his and Jerry's past adventures. The cartoons are introduced with rhyming German language verse, and when necessary, a German voice spoke the translations of English labels on items and similar information. The show was aired in mainland China by CCTV in the mids to the early s and was extremely popular at the time. Collections of the show are still a prominent feature in Chinese book stores. RPN aired most of Hanna-Barbera shorts from until ABS-CBN would later return to the air after the restoration of democracy in and air the same shorts as in the pre-martial law era.

This lasted until the end of Even though Gene Deitch 's shorts were created in Czechoslovakia — , the first official TV release of Tom and Jerry were in It was one of the few cartoons of western origin broadcast in Czechoslovakia and Romania until before the fall of the Soviet Union in In this scene, Tom also made a cameo as a servant. Filmmakers had wanted Mickey Mouse for the scene, but Walt Disney had rejected the deal, as the Disney studio was focusing on its own cartoons to help pay off its debts after World War II.

On October 1, , the first international release of Tom and Jerry: The Movie arrived when the film was released overseas to theaters in Europe [52] and then domestically by Miramax Films on July 30, , [53] with future video and DVD releases that would be sold under Warner Bros. Barbera served as creative consultant for the picture, which was produced and directed by Phil Roman. In , Warner Bros. In , another direct-to-video film, Tom and Jerry: Shiver Me Whiskers , tells the story about the pair having to work together to find the treasure. Joe came up with the storyline for the next film, Tom and Jerry: A Nutcracker Tale , as well as the initial idea of synchronizing the on-screen actions to music from Tchaikovsky's Nutcracker Suite. The holiday-set animated film was released on DVD in late and dedicated to Barbera.

It is the first made-for-video Tom and Jerry film produced without any of the characters' original creators. The next direct-to-video film, Tom and Jerry and the Wizard of Oz , was released on August 23, and was the first made-for-video Tom and Jerry film made for Blu-ray. It had a preview showing on Cartoon Network. Like many animated cartoons from the s to the s, Tom and Jerry featured racial stereotypes. Perhaps the most controversial element of the show is the character Mammy Two Shoes, a poor black maid who speaks in a stereotypical "black accent".

Joseph Barbera, who was responsible for these gags, claimed that they did not reflect his racial opinion; they were just reflecting what was common in society and cartoons at the time and were meant to be humorous. In the s, shorts featuring Mammy Two-Shoes were re-animated in part by Chuck Jones' team at MGM, alongside their work on the newer entries produced by Jones, in order to be shown on television. These versions of the shorts replace the African-American maid with a white woman, voiced by June Foray with an Irish accent. Turner redubbed Mammy Two-Shoes' voice in these shorts in the mids to make the character sound less stereotypical. Two shorts — His Mouse Friday , which depicts cannibals, and A Mouse in the House , which shows Mammy getting spanked repeatedly by Tom and Butch in the end resulting in racial abuse — have been removed from circulation. Notably the other two — Fraidy Cat , showed Tom biting Mammy in the rear near the end, and The Mouse Comes to Dinner , including Jerry briefly dressing up as a Native American stereotype during the beginning — have Mammy edited in complete absence.

DVD set, a disclaimer by actress and comedian Whoopi Goldberg warns viewers about the potentially offensive material in the cartoons. Goldberg's disclaimer emphasizes that the racial and ethnic stereotypes present in the shorts were "wrong then and they are wrong today", borrowing a phrase used in disclaimers done for Warner Bros. The cartoons you are about to see are products of their time. They may depict some of the ethnic and racial prejudices that were commonplace in U. These depictions were wrong then and they are wrong today. While the following does not represent the Warner Bros. In , the British version of the Boomerang channel made plans to edit Tom and Jerry cartoons being aired in the UK where the characters were seen to be smoking. There was a subsequent investigation by UK media watchdog Ofcom. In , it was reported that Cartoon Network of Brazil censored 27 shorts on the grounds of being "politically incorrect".

That title ran issues with Dell before being handed off to Western Publishing , where it ran until issue in Tom and Jerry continued to appear in various comic books for the rest of the 20th century. A Tom and Jerry comic strip was syndicated from to Throughout the years, the term and title Tom and Jerry became practically synonymous with never-ending rivalry, as much as the related "cat and mouse fight" metaphor has. Yet in Tom and Jerry it was not the more powerful Tom who usually came out on top.

Atari named the main pair of chips in the Jaguar 's chipset after the duo. In , the magazine National Lampoon referenced Tom and Jerry in a violence-filled comic book parody, Kit 'n' Kaboodle. In an interview found on the DVD releases, several Mad TV cast members stated that Tom and Jerry is one of their biggest influences for slapstick comedy. Johnny Knoxville from Jackass has stated that watching Tom and Jerry inspired many of the stunts in the films. In the second episode of season 2 of Dexter's Laboratory , a segment titled "Mom and Jerry" is a parody of Tom and Jerry , but with a mother and a mouse with Dexter's brain inside.

In the pre-video era, Tom and Jerry cartoons were a popular subject for 8mm home movies, with the UK-based Walton Films issuing dozens of titles as colour one-reel Super 8 films, in both silent and sound editions. Walton's agreement with MGM obligated them to release the films in slightly edited form, even though the single-reel format would have comfortably accommodated the cartoons' seven to eight minute running time. The cartoons are all intact save for His Mouse Friday dialogue has been wiped and Saturday Evening Puss , which is the re-drawn version with June Foray's voice added. There have been negative responses to Vol. A replacement program offering uncut versions of the shorts on DVD was later announced. There are also negative responses to Vol. Almost all of the shorts contain re-dubbed Mammy Two-Shoes tracks. Despite these cuts, His Mouse Friday , the only Tom and Jerry cartoon to be completely taken off the airwaves in some countries due to claims of racism, is included, unedited with the exception of zooming-in as on the North American set.

These are regular TV prints sent from the U. Shorts produced in CinemaScope are presented in pan and scan. Mouse Cleaning and Casanova Cat are presented uncut as part of these sets. However, most of these cartoons are included in the UK version. Most shorts produced in

CinemaScope are presented in pan and scan for showing on the aspect ratio television screen.

Prior to , the Gene Deitch-era shorts saw limited home media release outside of Europe and Asia. The sets were aimed at the collector in a way that the previous " Spotlight " DVD releases were not. Many collectors and fans [weasel words] have posted negative reviews of the product on Amazon and other various websites to make Warner put Mouse Cleaning and Casanova Cat on the release. From Wikipedia, the free encyclopedia. This is the latest accepted revision , reviewed on 17 September This article is about the animal cartoon series. For the titular characters, see Tom Cat and Jerry Mouse.

Special offers such as '3 for the price of 2' might not suit your palate. You will be amazed how all those little discounts add up to big savings on your shopping bill; there is no shame in availing of these offers. You may even have a discount offer on the back of your shopping receipt. Watch out too for 'double coupon' days. Look after the pennies and the pounds will look after themselves. Simply by visiting your local store, you might come across a 'loss leader' that you might have on your shopping list. This can be cheaper because impulse buys no longer apply. Delivery charges are negated by the cost of travelling to your supermarket and parking.

Also try the Buymie app. Before you shop, you should spend a few minutes checking out some of the discount websites for economies, not just on food - www. There's no point in arriving home with out-of-date food fit only for the bin. The same goes with food in stock - ensure that you consume foods that have been stored the longest and, of course, that are still safe to eat. And never ask for cashback. You are bombarded with offers of chocolates, batteries, magazines, etc, as you wait to pay in the store's last-ditch attempt to lure money from your wallet. Resist the temptation. Receiving cashback only increases the cost of your purchases as the cash is soon frittered away. There is a cent charge for every bag bought at the checkout used to carry your purchases.

You could kill two birds with the one stone by buying only bio-degradable and environmentally-friendly bags. Food and drink should be based on a balanced diet. Eating pizzas and drinking cola seven days a week is not going to do a whole lot of good for your diet. Plan your meals to reflect this balance. Instead, go home and put the kettle on. Prepare your own roll or baguette and refill your water bottle, so long as the water is fit to drink from the taps.

Water will soon be scarce, so use it wisely - never run the tap while washing or while brushing your teeth. Does it need replacing? Could you upgrade the model for efficiency purposes e. If you were to change, buy a car doing 35 miles per gallon, you would save 40pc on fuel costs. Apart from the environmental support through reduced carbon emissions, you could save hundreds of euro by such a change. You could pay 30pc in BIK otherwise. In about 80pc of cases and outside of all electric cars, it does not pay to maintain a company car.

Benefit in Kind BIK on company cars is prohibitive - 30pc of the value of the car when first purchased, e. Buy a car over 20 years old and 30 years respectively. Apart from the style, it would be cheaper to buy, and if you deem this car a company vehicle, the tax payable will be based on the value of the car at the time of purchase. Plus they are cheaper to insure while there is minimal car tax payable. Charge your colleagues a fuel-sharing fee should they have no car and wish you to drive them to work each day. Keep your car in top trim by regular car servicing, keeping the correct pressure in your tyres, driving under the speed limit, driving smoothly, and carrying no unnecessary weight inside the car. New tyres will be more efficient than the worn tyres that currently adorn your car.

Over two years old, and under normal annual mileage, your car could be a death trap anyway. Review those tyres! Take a note of your local stations and their fuel prices. Sometimes, to grab greater market share, stations will run a discount campaign to drive custom through their business. Look out for fuel discount cards. If you are a two-car family, review the need for the second car. Work out the practicalities. Would public transport - which is improving all the time - be more appropriate? Would the purchase of a bicycle be practical? Hybrid cars are already with us, but the future car will be an all-electric model.

In fact from , you will not be able to buy a petrol or diesel car. Electric cars are already capable of reaching kph and have a range of about plus miles. They will only improve year-on-year. If you are a person who changes your car every three years and just renews the existing and expensive car loan at that point, try saving over a three-year period so you do not need that car loan. Shop around if you must take out a car loan. Ensure you read the small print. Some car manufacturers offer 0pc finance to buy their cars. Expect to be charged between 6. Avoid moneylenders like the plague. Shop around through the various home heating companies looking for economies. Paying upfront for the year's oil requirements may reap dividends. For every degree you turn your thermostat down, you can save as much as 1pc to 3pc of the actual cost.

Remember to switch off the heating when away - even for weekends, and especially at the onset of summer. If your boiler is more than 10 years old, you could consider replacing it with a new condenser boiler - this has more efficient use of energy and should repay installation costs within two years. There are a number available, check out www. An Post Money - Green Hub. You will never know the day when you may be looking for a job. The most recession-proof employments can be found in education, healthcare, environment, energy and security. If you are not in these industries, you should brush up your skills, go to night classes or take online courses.

Whatever you do, don't stay in a sector that is in decline. Change into casual clothing after work. Hang up everything rather than leave on the floor or throw on a chair. There is no shame in buying clothes from these outlets as firstly you are helping the charity but secondly the clothes, often with designer labels, are far cheaper than buying new. Watch out for special offers throughout the year e. Great for selling unwanted clothes, electrical and electronic goods, concert tickets, etc. You will always find brand name medicine is more expensive. Ask your doctor to prescribe generic medicine. All your magazines, movies and books are there and they are free. Soon you will be able to order online and just collect. The good news for authors is royalties are now being paid, albeit minuscule, when books are taken out.

You could even read newspapers online. If you enjoy memberships, ensure you are getting value - could there be a better deal across town, or in a nearby town? Monitor your weight and fitness. The same applies to golf clubs, or any sporting or social membership. If you are not using it, cut it out. As entertainment outside the home becomes more expensive, the simpler life beckons but it can also be much more fun and much more social.

Family birthdays and Christmas presents, special friends' gifts. You know you will have to buy, but why wait until the week before Christmas to buy - the most expensive week of the year? Do you really need the movie channels and if you are a golf buff, are you really going to spend that much time on Sky Sports and BT Sports, let alone the Golf Channel? Try Skype www. With over million subscribers and 15 million online at one time, the savings are very significant Skype to Skype calls are free while Skype to landlines cost 0.

If you have chatterbox children, block all outgoing mobile calls - the saving could be significant. You should also always check your telecom bill and review the top 10 most called and top 10 most expensive - it can be very revealing. WhatsApp and FaceTime are equally efficient and are free as is the less-used Viber. Check with ComReg's web site www. This site gives you all the broadband operators and various costs associated. The eurotariff legislation on roaming charges may make it cheaper to phone home than send a text message which is not covered under the current legislation. Mobile phones incorporating mp3 players, internet, email, camera, video and radio are becoming cheaper and more sophisticated by the year. Some of the electronic equipment you now have is either out of date or incorporated in new gizmos.

Sell it. Also use rechargeable batteries - even placing batteries in a fridge will prolong their life. Use these websites to your best advantage. Putting your name in front of millions can reap dividends whatever your purpose. You may find that your friends are under financial pressure and would welcome offers at a discount to rent their foreign holiday homes.

A win-win situation for them and you. Garden jobs and work around the house will tone your muscles, get you fitter, plus your garden will positively bloom - not to mention attracting the admiring glances from your neighbours. Instead of every six weeks, make it every 10 weeks. Better still, cut your own hair or ask a friend to do it. Don't wait for pandemics to grow your hair. Rather than storing, hoarding or dumping your prized possessions, sell them from your garage or car boot. Only leave out your respective bins general refuse, green and brown bins when they are completely full. Collection charges apply irrespective of weight if you leave the bins out. Scratch cards and competitions in newspapers, magazines, on radio and on TV - someone has to win and it could be you. Remember, if you're not in, you can't win it!

Electric Ireland came back onto the field they had to wait until 40pc of their business had migrated to other providers before being allowed back in the game and with Airtricity, Energia and Flogas, the consumer now has choice. Keep checking and install a meter - pinergy. This will save you up to 20pc of your annual bills. They may not look as pretty, but they will put money back in your pocket. The immersion should only be used during the summer or when you do not need your central heating. The immersion is like a kettle - it should be switched off when you have heated the water you need. Also leave those washing loads for the night time. Children especially should be encouraged to turn off lights, especially in their own bedrooms when they leave for school on winter mornings. Minimise lighting where you can. Think of using candles - it's more romantic. Taking shorter showers can save a substantial amount of money given the high cost of running electric showers, especially in a house full of teenagers.

If you cannot fill it, place jugs of water inside. It is cheaper to run a full freezer than an empty one. It is much cheaper than using the expensive tumble-dryer. Only use that tumble dryer off peak and preferably at night-time rates.
