Among the amusing bits: Helen thanking her GPS system for its directions, only to have it explain that "I'm only a robotic voice" - and then adding "you could play more Manheim Steamroller". Then there's Helen and her boyfriend's mother squealing together over a shared interest in technology much to the boyfriend's discomfiture. And I loved the strip where a smarmy art director hits on Helen, asking if she's ever done any modeling - only to have her reply cheerfully, "Of course!
